**An investor should consider the investment objectives, risks, and charges and expenses before investing. This and other important information is contained in the Bright Directions Advisor-Guided 529 College Savings Program Disclosure Statement, which can be obtained from your financial professional or at [BrightDirections.com](http://BrightDirections.com) and should be read carefully before investing. You can lose money by investing in a portfolio. Each of the portfolios involves investment risks, which are described in the Program Disclosure Statement. Before you invest, consider whether your or the beneficiary's home state offers any state tax or other state benefits such as financial aid, scholarship funds, and protection from creditors that are only available for investments in that state's 529 plan.**

<sup>1</sup>An individual who files an individual Illinois state income tax return will be able to deduct up to \$10,000 per tax year (up to \$20,000 for married taxpayers filing a joint Illinois state income tax return) for their total, combined contributions to the Bright Directions Advisor-Guided 529 College Savings Program, the Bright Start Direct-Sold College Savings Program, and College Illinois during that tax year. The \$10,000 (individual) and \$20,000 (joint) limit on deductions will apply to total contributions made without regard to whether the contributions are made to a single account or more than one account. The amount of any deduction previously taken for Illinois income tax purposes is added back to Illinois taxable income in the event an Account Owner makes an Illinois Nonqualified Withdrawal from an Account or if such assets are rolled over to a non-Illinois 529 plan. If Illinois tax rates have increased since the original contribution, the additional tax liability may exceed the tax savings from the deduction.
