### Economic & Financial Market Review

Global economic growth continued to slow gradually, albeit amongst a mixed picture regionally. U.S. and Japan economic activity remained robust, while Europe struggled. Higher levels of inflation from a year ago are driving year-over-year inflation lower (known as base effects). Global inflation fell from 7.0% in October 2022 to 3.9% in September 2023, still well above the central banks' 2% target. Additionally, rising crude oil prices are making any further decline very difficult. Global policy rates rose by 176 basis points (bps) in the twelve months ending October 2023. The hawkish monetary policies from global central banks continue to weigh heavily on global financial conditions.

The United States Federal Reserve (Fed) hiked interest rates six times for a 225 bps increase in total since October 2022. However, services inflation, including shelter, remains resilient despite more benign core goods prices, making it difficult for the Fed to claim victory in their inflation fight. The Fed has paused its hikes for now and is taking a data dependent approach, but may hike further if inflation pressure remains high.

Manufacturing activity remained weak, and services activity remained in expansion, albeit at a lower level. U.S. real Gross Domestic Product (GDP) grew an average quarter-over-quarter annualized rate of 3.0% in the four quarters ending in September 2023. However, global manufacturing Purchasing Managers' Index (PMI) was below 50 for the 13th consecutive month. Similarly, developed market PMIs were below 50 again, as they have been since October 2022. Emerging market (EM) PMIs, on the other hand, continued a streak of ten consecutive months above 50.

Global earnings growth was only modest, but earnings revisions rebounded on the back of a better-than-expected economy that continues to show signs of resiliency. Compared to the same time last year, the MSCI All Country World Index (ACWI) trailing 12 months earnings per share (TTM EPS) increased by 6%. The MSCI Europe Index earnings grew at a faster pace than the MSCI U.S. Index (14% vs. 0%). Within the U.S., large-cap growth stocks, represented by the Russell 1000 Growth Index, delivered the highest earnings growth (1%). Small-cap, mid-cap, and value stocks, represented by the S&P Small-Cap 600 Index, the S&P Mid-Cap 400 Index, and the Russell 1000 Value Index respectively, all saw negative year-over-year earnings growth. Large tech, represented by NASDAQ 100 Index, delivered -6% earnings growth. The MSCI China Index continued to drag with -7% earnings growth.

Global equities outperformed global bonds in the last twelve months, with the MSCI ACWI recording an 11% gain year-over-year, while the Bloomberg Global Aggregate Corporate Index gained 5%. Within equities, developed markets (MSCI World Index) delivered a 10.5% return, similar to emerging markets (MSCI Emerging Markets Index), which recorded a 10.8% gain. The U.S. (MSCI U.S. Index) underperformed developed market ex-U.S. (MSCI World ex-U.S. Index) marginally by 3%. Among major markets, U.S. small-cap (S&P Small-Cap 600 Index) was the worst performer with an 8% loss. On the other hand, the NASDAQ 100 Index was the top performer with a 27% gain. The Bloomberg U.S. Treasury Index delivered a 1% loss as the U.S. 10-year treasury yield rose from 4.05% to 4.93%. Global high yield bonds (Bloomberg Global High Yield Index) outperformed investment grade corporate bonds (Bloomberg Global Aggregate Corporate Index) and global treasury bonds (Bloomberg Global Treasury Index) by 5% and 10%, respectively. The DXY Index, a proxy for USD strength, dropped by 4%. Commodity prices (S&P GSCI Total Return Index) were flat, and Nymex crude oil dropped from 86.5 to 81.0 USD/barrel as the demand-supply dynamic improved.

Unless otherwise stated, data sources are Bloomberg, FactSet, and Principal Asset Allocation. Data as of October 31, 2023.

<sup>1</sup> In global PMI readings, a number above 50 means that manufacturing activity is expanding, and a number below 50 indicates contraction.

#### Index descriptions:

MSCI All Country World Index (ACWI) includes large and mid-cap stocks across developed and emerging market countries.

MSCI China Index captures large and mid cap representation across China A shares, H shares, B shares, Red chips, P chips and foreign listings (e.g. ADRs).

MSCI World Index captures large and mid-cap representation across 23 Developed Markets (DM) countries.

MSCI World ex-U.S. Index captures large and mid-cap representation across 22 of 23 Developed Markets (DM) countries-- excluding the United States.

MSCI Europe Index captures large and mid-cap representation across 15 Developed Markets (DM) countries in Europe.

MSCI Emerging Markets Index consists of large and mid-cap companies across 24 countries and represents 10% of the world market capitalization. The index covers approximately 85% of the free float-adjusted market capitalization in each of the 24 countries.

MSCI U.S. Index is designed to measure the performance of the large and mid-cap segments of the U.S. market.

### Economic & Financial Market Review

NASDAQ 100 Index is a basket of the 100 largest, most actively traded U.S. companies listed on the NASDAQ stock exchange. The index includes companies from various industries except for the financial industry, like commercial and investment banks.

Russell 1000 Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe.

Russell 1000 Value Index measures the performance of the large-cap value segment of the U.S. equity universe.

Bloomberg Global Aggregate Corporate Index is a flagship measure of global investment grade debt from 24 local currency markets. This multi-currency benchmark includes treasury, government-related, corporate, and securitized fixed-rate bonds from both developed and emerging markets issuers.

Bloomberg Global High Yield Index is a multi-currency flagship measure of the global high yield debt market. The index represents the union of the US High Yield, the Pan-European High Yield, and Emerging Markets (EM) Hard Currency High Yield Indices.

Bloomberg Global Treasury Index tracks fixed-rate, local currency government debt of investment grade countries, including both developed and emerging markets. The index represents the treasury sector of the Global Aggregate Index and contains issues from 37 countries denominated in 24 currencies.

Bloomberg U.S. Treasury Index measures U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury.

U.S. Dollar Index (USDX, DXY, DX) is an index (or measure) of the value of the United States dollar relative to a basket of foreign currencies, often referred to as a basket of U.S. trade partners' currencies.

S&P Mid-Cap 400 Index, more commonly known as the S&P 400, is a stock market index from S&P Dow Jones Indices. The index serves as a gauge for the U.S. mid-cap equities sector and is the most widely followed mid-cap index.

S&P Small-Cap 600 Index is a stock market index established by Standard & Poor's. It covers roughly the small-cap range of American stocks, using a capitalization-weighted index

S&P GSCI Total Return Index is an index of 24 exchange-traded futures contracts that represent a large portion of the global commodities market.

### **Important Fund Information**

### The following information applies to all funds shown in the annual report:

Securities described in the fund commentary may no longer be held in the fund.

Investment results shown represent historical performance and do not guarantee future results. Your investment's returns and principal values will fluctuate with changes in interest rates and other market conditions so the value, when redeemed, may be worth more or less than original costs. Current performance may be lower or higher than the performance shown. For more information, including the most recent month-end performance, visit PrincipalAm.com, call your financial professional, or call 800-222-5852.

A sales charge may apply as follows: Class A shares: maximum up-front sales charges on sales based on declining rates which begin at 1.50% for LargeCap S&P 500 Index Fund, 2.25% for Core Fixed Income Fund, Government & High Quality Bond Fund, and Short-Term Income Fund, 3.75% for California Municipal Fund, Core Plus Bond Fund, Diversified Income Fund, High Yield Fund, Principal LifeTime 2020 Fund, Principal LifeTime 2030 Fund, Principal LifeTime Strategic Income Fund, SAM Flexible Income Portfolio, and Tax-Exempt Bond Fund, and 5.50% for Diversified International Fund, Equity Income Fund, Global Emerging Markets Fund, Global Real Estate Securities Fund, LargeCap Growth Fund I, MidCap Fund, MidCap Value Fund I, Principal Capital Appreciation Fund, Principal LifeTime 2040 Fund, Principal Lifetime 2050 Fund, Real Estate Securities Fund, SAM Balanced Portfolio, SAM Conservative Balanced Portfolio, SAM Conservative Growth Portfolio, SAM Strategic Growth Portfolio, and SmallCap Fund; Class C shares: contingent deferred sales charge of 1% on redemptions made during the first 12 months. Class J shares: contingent deferred sales charge of 1% on redemptions made during the first 18 months. Institutional and Class R Shares do not have a sales charge. See the prospectus for details. Performance listed with sales charge reflects the maximum sales charge.

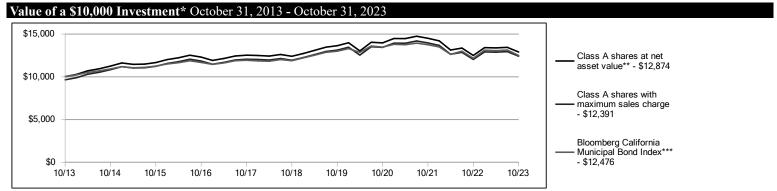

<sup>\*</sup> Performance assumes reinvestment of all dividends and capital gains. Extended performance is calculated based on the historical performance of the Fund's oldest share class, adjusted for the fees and expenses of the share class shown. Performance does not reflect the impact of federal, state, or municipal taxes. If it did, performance would be lower.

<sup>\*\*</sup> Net asset value is not adjusted for sales charge.

<sup>\*\*\*</sup> Performance shown for the benchmark assumes reinvestment of all dividends and distributions. Indices are unmanaged, and individuals cannot invest directly in an index.

# California Municipal Fund

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide as high a level of current income that is exempt from federal and state personal income tax as is consistent with prudent investment management and preservation of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in California municipal obligations (securities issued by or on behalf of state or local governments and other public authorities) at the time of purchase. Generally, these municipal obligations pay interest that is exempt from state personal income tax and federal income tax.

For the twelve-month period, yields on the Bloomberg California Municipal Index modestly increased however, the California municipal market had a gain because of the higher yields. California Municipal Bond fund outperformed its benchmark. Duration and sector allocation were positive contributors, security selection was a negative detractor. During the fiscal year ending October 31, 2023, the top sector contributors were state, transportation, and multi-family while the top individual security contributors were Poseidon Resources, San Diego Regional Airport, and United Airlines.

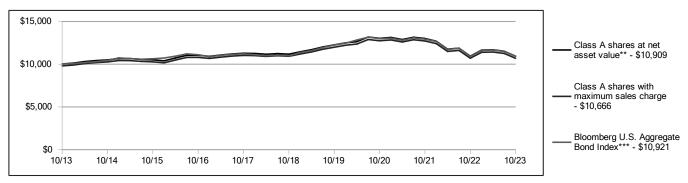

The top sector detractors for the fiscal year included waste, single-family housing, and power while the top individual security detractors were Alameda Corridor Transportation Authority, California Statewide Communities Development Authority Community Housing, and California Nevada Healthcare.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Class A share class, adjusted for the fees and expense of the share class.

R-6 Shares		0.32%	-0.05%	1.21%	11/25/14	12/15/75

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of current income consistent with preservation of capital. The fund invests primarily in a diversified pool of investment-grade fixed-income securities, including corporate securities, U.S. government securities, asset-backed securities and mortgage-backed securities. It maintains an average portfolio duration that is within  $\pm 25\%$  of the duration of the Bloomberg U.S. Aggregate Bond Index.

Top contributors to performance were an overweight to corporate bonds, an overweight to asset-backed securities and an underweight to mortgage-backed securities. Security selection in the transportation and energy sectors also contributed.

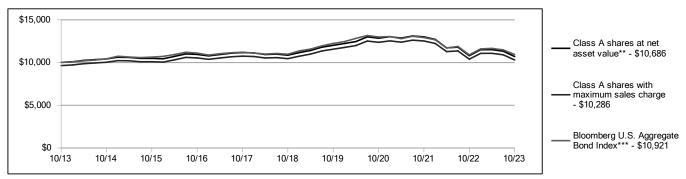

Security selection in banking, electric utilities and treasuries detracted from performance as well as an underweight to commercial mortgage-backed securities and sovereign debt.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Class A share class, adjusted for the fees and expense of the share class.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and, as a secondary objective, capital appreciation. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in bonds or other debt securities at the time of purchase. Under normal circumstances, the fund maintains an average portfolio duration that is within ±25% of the duration of the Bloomberg U.S. Aggregate Bond Index.

During the past year, the top contributing factors included security selection within investment grade corporate bonds, security selection within agency mortgage-backed securities, and security selection within below investment grade corporate bonds

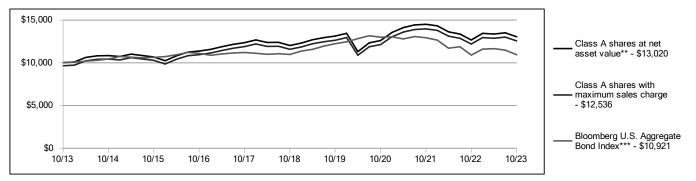

During the past year, the top detracting factors included duration positioning, an underweight allocation to investment grade corporate bonds, and an underweight allocation to government related bonds.

R-6 Shares		3.37%	1.99%	3.00%	6/12/17	12/15/08	

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks income. The fund generally invests a majority of its assets in fixed income securities, such as investment-grade corporate bonds, high yield bonds (also known as "junk" bonds), preferred securities, commercial mortgage-backed securities, and emerging market debt securities, in an effort to provide incremental yields over a portfolio of government securities. Such securities include instruments with variable or floating interest rates. The fixed income portion of the fund is not managed to a particular maturity or duration. The fund invests in foreign, including emerging market, securities.

The portfolio benefited from favorable manager selection and asset allocation during the year. An allocation to high yield was particularly beneficial as spreads tightened. Similarly, an allocation to floating rate bank loans was additive, as the asset class excelled in the rising rate environment. Manager selection within high yield, led by Polen Capital Credit, LLC, further boosted results. An allocation to emerging market debt aided returns as the asset class outpaced the broad bond market, and critically, Finisterre, an investment team within the Manager, easily outpaced their asset class index during the period. Finally, an allocation to preferred securities and investment grade credit boosted returns.

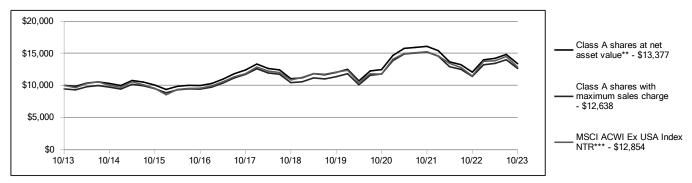

An allocation to commercial mortgage-backed securities was the largest detractor during the year as the asset class was under pressure in a rising rate environment and supply/demand imbalance within commercial real estate. Manager selection within investment grade credit modestly held returns back as PineBridge Investments LLC trailed its asset class index.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

R-6 Shares		11.40%	4.37%	3.15%	3/1/19	12/6/00

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund invests primarily in foreign equity securities. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in foreign securities of at least 20 countries. The fund invests in equity securities regardless of market capitalization size (small, medium or large) and style (growth or value).

Strong stock selection was witnessed in the United Kingdom and the materials and health care sectors. 3i Group, a United Kingdom private equity firm, benefited from growth in their discount retailer Action. CRH, a building materials company, moved higher after moving its primary listing to the U.S. which should allow for additional investment. Novo Nordisk, a Danish pharmaceutical company, outperformed due to positive trials for additional health benefits from taking their weight loss and diabetes drugs.

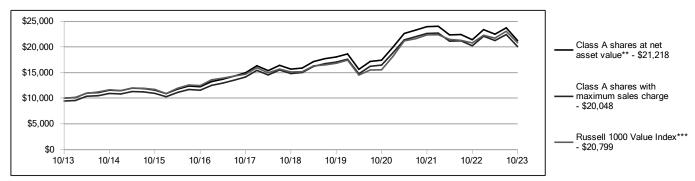

On the other hand, negative attribution was seen in China and the consumer discretionary and energy sectors. Tencent, a Chinese digital platform company, which the portfolio did not hold led to relative underperformance as the company rallied during the China reopening at the end of last year. Li Ning, a Chinese sportswear brand, moved lower on weaker than expected online sales. Equinor, a Norwegian oil exploration and production company, traded down on weaker than expected demand due to a warmer winter in Europe.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

R-5 Shares		-0.73%	6.37%	7.94%	3/1/10	_	

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and long-term growth of income and capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in dividend-paying equity securities at the time of purchase. It usually invests in equity securities of companies with large and medium market capitalizations. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

Marathon Petroleum Corporation (MPC) reported strong results driven by refining margins and continues to return capital to shareholders through an aggressive share repurchase program and a 29% increase in their dividend payout over the last year. PACCAR Inc (PCAR), manufacturer of trucks under the Peterbilt, Kenworth, and DAF brands contributed to relative performance as the company picked up market share in both North America and Europe over the past year. Microsoft Corporation (MFST), a cloud leader with its Azure platform, MSFT is uniquely positioned to deliver both services and infrastructure as a service solution at scale. MSFT continues to leverage its huge installed base to move customers to Azure, while Office 365 retains its dominance in office productivity software. Holding MSFT contributed to relative performance on the year.

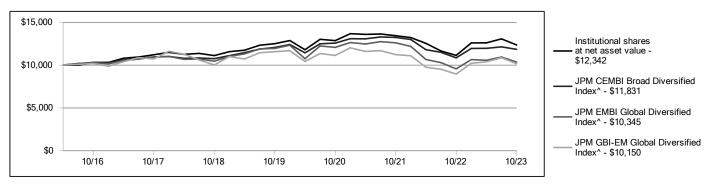

Not owning Meta Platforms Inc. (META) detracted from relative performance. First Republic Bank (FRC) detracted from relative results as the company came under deposit pressure following the collapse of Silicon Valley Bank and continued cash sorting by customers. Alexandria Real Estate Equities, Inc. (ARE) has carved out a niche within the office sector as the leading life science real estate investment trust (REIT) specifically focused on lab office space. ARE leases primarily to pharma, life science and not-for-profit research institutions in key research clusters of San Francisco, Boston, New York City, Seattle, San Diego, and the Research Triangle. ARE detracted from relative performance as investors grew concerned over company's biotech exposure, higher potential development costs, and cap rates in the private markets moving higher.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Class A share class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate total returns from current income and capital appreciation. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in bonds and other fixed-income securities that are tied economically to an emerging market, and in derivatives on such investments. It uses derivatives to enhance return and to hedge and manage investment risks.

For the twelve-month period ending October 31, 2023 Finisterre Emerging Markets Total Return Bond Fund returned +11.57% gross, relative to the blended benchmark return of 10.37%. Our exposures in Macau benefitted significantly from the late 2022 awarding of new ten-year concessions as well as the sudden shift away from China's Zero Covid Policy. Recent third quarter earnings showed a return to positive free cash flow and progress on deleveraging. We have concentrated our exposure in Melco which we see as one of the cleaner ownership structures and strong stand-alone fundamentals as well as exposure to their partly-owned subsidiary Studio City. On the other hand, local market performance was very strong, particularly in the first half of 2023; large positions in Mexico and Brazil and to a lesser extent in South Africa and Poland contributed strongly to performance. Much more aggressive central banks had created huge real rate buffers into yields, a phenomenon that remains in place today in some of these markets. In hard currency, performance was supported by strong bounce backs after the Emerging Market selloffs in mid-2022 and again in the autumn of 2023. Idiosyncratic stories were also a big performance driver as much value had been created in the 2022 selloff and as we saw catalysts for performance. El Salvador was the best performer in this space as bonds more than doubled on Bukele's newfound fiscal restraint and multilateral lending got them over their 2023 Eurobond maturity. Sri Lanka had lurched into a messy default and we added with the view that this is a relatively high growth economy with a decent International Monetary Fund relationship; this position paid off nicely and we exited. Our long-term holdings in Iraq and Ukraine also returned nicely.

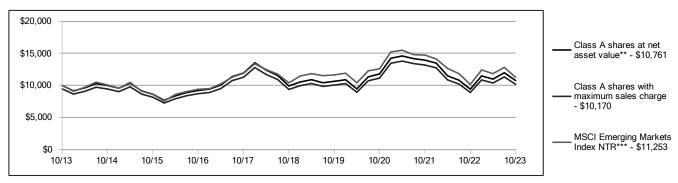

Detractors were largely focused on tactical hedges; in a market that spent much of the last twelve-months rallying, hedges detracted. We still believe strongly that tactical hedges remain a key source of ability to limit drawdowns. Turkey was the biggest detractor in our external sovereign positions as our bearishness was proven unfounded as Erdogan won re-election and took a hard shift to a more orthodox policy mix.

<sup>^</sup>The Fund uses a blended benchmark, Finisterre Emerging Markets Total Return Bond Blended Index, which shows how the Fund's performance compares to a blend of indices with similar investment objectives. Finisterre Emerging Markets Total Return Bond Blended Index is composed of 33.33% JPM CEMBI Broad Diversified Index, 33.33% JPM EMBI Global Diversified Index, and 33.33% JPM GBI-EM Global Diversified Index. Performance shown for the benchmark assumes reinvestment of all dividends and distributions. Indices are unmanaged, and individuals cannot invest directly in an index.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of emerging market companies at the time of purchase. "Emerging market" means any market which is considered to be an emerging market by the international financial community (including the MSCI Emerging Markets Index or Bloomberg Emerging Markets USD Aggregate Bond Index). It invests in equity securities regardless of market capitalization (small, medium or large) and style (growth or value).

Strong stock selection in the Asia ex-China region drove overall outperformance during the year. South Korea and Taiwan were the best performing markets, both led by the information technology sector. We also benefitted from being underweight the Europe, Middle East, and Africa (EMEA) region with the region down 1.6% versus the 10.8% gain for the overall emerging markets index. Saudi Arabia was the best performing market in the region where we benefitted from being underweight and positive stock selection in the energy sector. China and Mexico were the other notable contributors during the period. Within China, industrials was the main source of outperformance and financials drove gains in Mexico. From an overall sector perspective, information technology was the best performing. Outperformance was driven by both the semiconductor and hardware industry groups. Financials was the notable sector to outperform during the period. Insurance was the best performing industry group, led by our Mexican exposure.

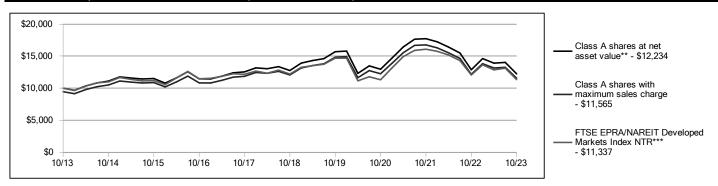

The worst performing markets during the year were Malaysia and Brazil. Weakness in Malaysia came from negative stock selection in the information technology and industrials sectors. Losses in Brazil came from an overweight position to industrials and consumer discretionary, down 12.7% and 43.5%, respectively as well as an underweight position to energy, up 57.6%. Energy was the only sector to underperform during the period, mostly led by an underweight position to Petrobras, which gained 65.5%.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate a total return. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of U.S. and non-U.S. companies principally engaged in the real estate industry at the time of purchase. For the fund's investment policies, a real estate company has at least 50% of its assets, income or profits derived from products or services related to the real estate industry.

Selection within U.S. healthcare, net lease, and apartments was a top contributor. Within healthcare, the fund benefitted from an overweight to outperforming senior housing stocks on continued strong fundamentals and underweight to stocks with weaker earnings. An underweight to net lease contributed, as the overall sector was impacted by concerns over rising rates impacting their growth potential. Our preference for coastal over Sunbelt apartment real estate investment trusts (REITs) also contributed, as there are continued concerns regarding elevated supply in the latter market. Stock selection within Australian industrial and data centers was additive, as was our preference for higher quality French retail stocks with stronger balance sheets.

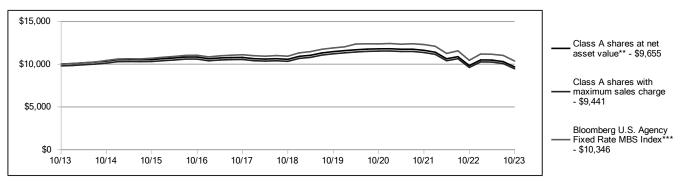

An underweight to strength in U.S. data centers was detractive, as the sector outperformed on elevated artificial intelligence (AI) expectations. Selection within U.S. industrial detracted, as we were overweight to a company with exposure to slowing Southern California conditions. An underweight to U.S. retail also hurt as a more resilient than expected U.S. consumer and improving operating metrics led the sector to outperform.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional Class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks a high level of current income consistent with safety and liquidity. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in debt securities issued by the U.S. government, its agencies or instrumentalities or debt securities that are rated, at the time of purchase, AAA by S&P Global or Aaa by Moody's, including but not limited to ABS, mortgage securities such as agency and non-agency collateralized mortgage obligations, and other obligations that are secured by mortgages or mortgage-backed securities (MBS).

Fixed income markets remained under pressure for the majority of 2023 as central banks continued to pursue policies to reduce inflation. These policies, including continued increases of Federal Funds rate and continued quantitative tightening, led to higher rates across the curve over the year. Increased uncertainty regarding the Federal Reserve (Fed) terminal rate also led to increased interest rate volatility, relative to history.

Fundamentals remained favorable for the mortgage-backed securities market for the majority of 2023. Refinancing risk is minimal, even for a substantial interest rate rally, and mortgages are nearly fully extended. The muted prepayment environment provides a stable and predictable cash flow stream for the sector. The technical environment was challenging in 2023. After a record amount of bank MBS demand in 2021-2022, banks have been modestly reducing exposure in 2023. The Fed continues to reduce U.S. Treasury (UST) and MBS balance sheet, the latter at a pace of only about \$15 billion per month, largely due to normal amortization and coupon payments as opposed to not replacing refinancing. Real estate investment trusts (REITs) have largely been on the sidelines as price/book value remains well below par. Money managers have been the marginal bid for MBS, and they have taken MBS allocations up to absorb relatively light supply and also to facilitate the liquidation of Silicon Valley Bank/ Signature Bank portfolios through the Federal Deposit Insurance Corporation. With the challenging technical environment, mortgage spreads have also been volatile. On a year over year basis, measured from October 2022 to October 2023, Bloomberg U.S. Agency Fixed Rate MBS Index spreads moved from 72 basis points (bps) to 75 bps, while reaching a low value of 36 bps in January 2023. Current coupon spreads to UST 5/10yr saw similar volatility closing at 178 bps in October 2023 which compares to levels of 174 bps in October 2022 and a low of 119 bps in February 2023. In addition to attractive absolute spreads, MBS also are cheap to history relative to investment grade credit spreads.

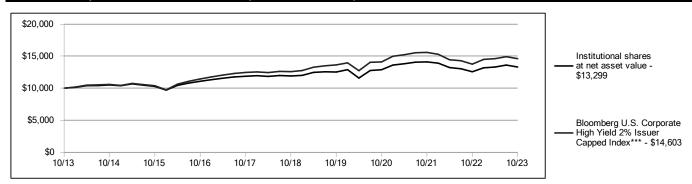

Security selection/coupon allocation was the largest contributor to performance for the year as the fund maintained an underweight position to the lowest coupons in the Bloomberg U.S. Agency Fixed Rate MBS Index (i.e. Conventional/Ginnie Mae 1.5%-2.5%). An out-of-index allocation to the non-agency mortgage-backed securities (Non-Agency Collateralized Mortgage Obligation (CMO)) also contributed to performance. Further, the portfolio utilization of short-duration asset backed securities (ABS) combined with select to-be-announced (TBA) rolls contributed to performance for the year.

The fund's out-of-index allocation to the agency collateralized mortgage-backed securities sector (Agency CMO) was the primary detractor to performance for the year. The fund's relative duration versus the index also detracted from performance for the year as the fund was generally positioned longer than the index. The fund underweight position to the 15-year and 20-year portion of the Bloomberg U.S. Agency Fixed Rate MBS Index also detracted from performance.

### High Income Fund

Investment Advisor: Principal Global Investors, LLC Sub-Advisors: Insight North America LLC; Polen Capital Credit, LLC; Post Advisory Group, LLC

### Value of a \$10,000 Investment\* October 31, 2013 - October 31, 2023

Average Annual Total Returns* as of October 31, 2023				
	1-Year	5-Year	10-Year	Inception Date
<b>Institutional Shares</b>	5.89%	2.25%	2.89%	12/29/04

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks high current income. Under normal circumstances, the fund invests primarily in below investment grade bonds and bank loans which are rated, at the time of purchase, Ba1 or lower by Moody's Investors Service, Inc. ("Moody's") and BB+ or lower by S&P Global Ratings ("S&P Global") (if the bond or bank loan has been rated by only one of those agencies, that rating will determine whether it is below investment grade; if the bond or bank loan has not been rated by either of those agencies, those selecting such investments will determine whether it is of a quality comparable to those rated below investment grade).

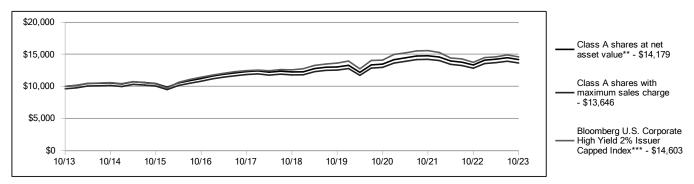

For the year, Polen Capital Credit, LLC (Polen) outperformed the index. Polen outperformed the index due to positive selection within capital goods and basic industry names. Post Advisory Group, LLC's (Post) performance was helped by selection within financial institutions.

For the year, Post underperformed the index. Post's underperformance was caused by poor selection within energy and consumer cyclical names. Insight performed in line with the index. Polen's performance was hurt by selection within communication and consumer cyclical names.

R-6 Shares		6.64%	3.37%	3.83%	11/22/16	4/8/98

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of current income. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in below investment grade bonds and bank loans (sometimes called "high yield" or "junk") which are rated, at the time of purchase, Ba1 or lower by Moody's and BB+ or lower by S&P Global. It also invests in investment grade bank loans (also known as senior floating rate interests) and securities of foreign issuers.

Security selection positively impacted returns due to the outperformance from overweights to Ahern Rentals, Triumph Group, and SRM Escrow Issuer, as well as underweights to Commscope, and Centurylink Inc. Sector allocation outperformed due to an underweight to Communications, and an overweight to Basic Materials.

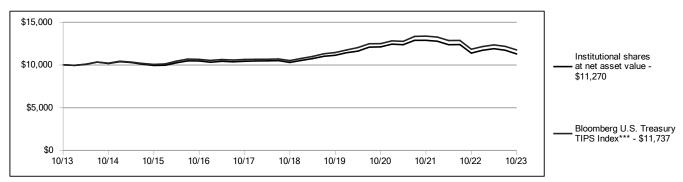

Detractors to performance were driven by overweights to Valcour Packaging LLC, and EW Scripps Co, underweights to Wynn Macau LTD, Carvana Co, and Sands China. Additionally, our underweights to Consumer Cyclicals and Consumer Non-cyclicals also detracted from performance.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Class A share class, adjusted for the fees and expense of the share class.

R-5 Shares		-1.14%	1.61%	0.96%	12/29/04

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide current income and real (after inflation) total returns. The fund invests primarily in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and U.S. and non-U.S. corporations. Under normal circumstances, the fund maintains an average portfolio duration that is within  $\pm 20\%$  of the duration of the Bloomberg U.S. Treasury Inflation Protected Securities ("TIPS") Index. The fund is not managed to a particular maturity.

The key themes of this year have covered a wide span of events ranging from historically high interest rates to significant geopolitical events in the global economy. As a result, markets have seen increased volatility for the year, with the U.S. 10-year treasury reaching a 16 year high of approximately 5% in the second half of 2023. Against this backdrop, the portfolio was able to outperform the benchmark. Looking at the details, our tactical positioning in headline duration and allocation to rental-linked securities were the primary contributors to the outperformance. In late 2022, the Team held an overweight in headline duration focusing on the U.S. as we viewed the Federal Reserve (Fed) is nearing the end of its hiking cycle. We flipped to an underweight in early first quarter 2023 after a material reprice lower in rates before switching back to overweight in the second and third quarter. The portfolio's structural allocation to rental-linked securities, focusing on single family rentals (SFR), also positively contributed to performance as we saw spread levels compress over the period.

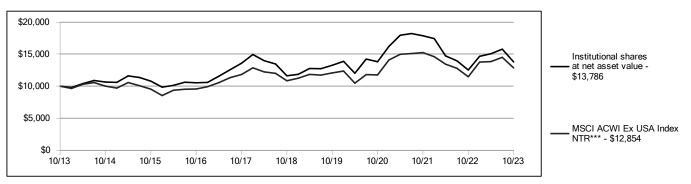

There was no notable detractor to performance over the period aside from marginal negative contributions from our tactical short in Japanese nominal rates and strategic foreign exchange (FX) positions. At the beginning of the period, the portfolio's short position in Japanese nominal rates contributed to performance as the Bank of Japan (BoJ) loosened their yield curve control (YCC) in December of 2022. However, we gave back the positive performance over 2023 as Japanese nominal rates rallied during in the first half of 2023. Most of the move lower in rates unwound in late 2023 due to further adjustments to YCC by the BoJ.

The team sees derivatives as an effective and efficient tool to manage duration, yield curve, and volatility risk in the Portfolio. During the period, the Portfolio utilized forward currency contracts to hedge the currency exposure associated with some or all of the Portfolio's securities and shift investment exposure from one currency to another. We utilized futures contracts to manage duration and yield curve exposure of the Portfolio in an efficient manner. We used options to create various exposures for the Portfolio, isolate perceived mispricing, and create asymmetric risk profiles. We also used written options to increase the Portfolio's carry. We used interest rate swaps to express our breakeven strategies or enhance yields of already existing positions. We used inflation swaps to hedge underlying inflation-linked positions, and caps and floors that provide protection against moves in the inflation market.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund invests primarily in foreign equity securities, including emerging market securities. It typically invests in foreign securities of at least ten countries. The fund invests in equity securities of small, medium, and large market capitalization companies. It invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

The Fund underperformed its benchmark during the twelve-month period. Stock selection within Consumer Discretionary proved the most detracting at sector level, followed by Industrials, while selection in Communication Services provided the biggest positive effect. Geographically, Japan had the largest negative impact, while stock selection in North America contributed the most.

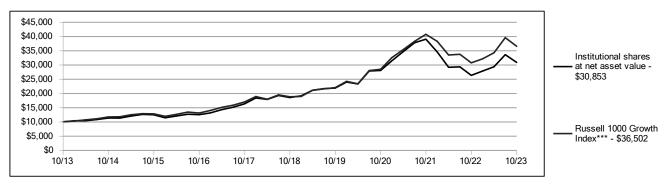

Over the twelve-month period, the Fund's exposure to North America was decreased in favor of Europe ex UK. Financials and Consumer Staples were also increased, mainly at the expense of Industrials.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations at the time of purchase. It invests in growth equity securities, an investment strategy that emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average. The fund is non-diversified.

For the one-year period, T. Rowe Price Associates, Inc. (T. Rowe) outperformed the index. T. Rowe's outperformance was due to an underweight to consumer staples, as well as strong stock selection within the communication services and information technology sectors. Brown Advisory, LLC's (Brown) performance was helped by strong stock selection within the information technology and financials sectors.

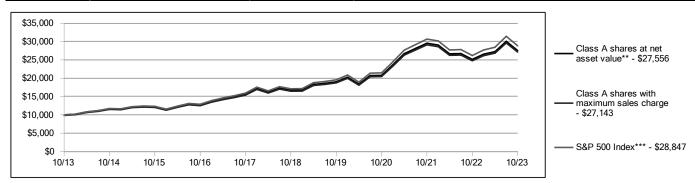

Brown underperformed the index by a wide margin. Brown underperformed the index due to poor stock selection in the industrials and healthcare sectors. An overweight to healthcare and an underweight to information technology also detracted from performance. T. Rowe's performance was hurt by an overweight to healthcare and poor stock selection in the consumer discretionary sector.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies that compose the S&P 500 Index at the time of purchase. The index is designed to represent U.S. equities with risk/return characteristics of the large cap universe.

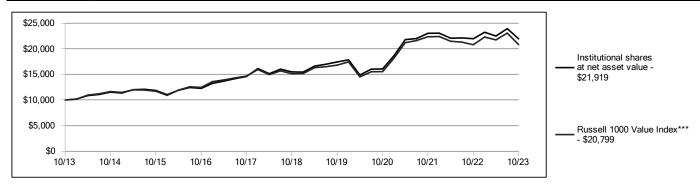

During the twelve-month period ending in October 2023, the LargeCap S&P 500 Index Fund was in line with the S&P 500 Index. It uses an indexing strategy and does not attempt to manage market volatility, use defensive strategies or reduce the effect of any long-term periods of negative stock market performance. Five of the eleven economic sectors in the index posted positive returns during the period with the communication services and information technology sectors providing the best return. Meta Platforms, NVIDIA, and Broadcom contributed to fund performance for the twelve-month period ending October.

The utilities and real estate sectors recorded the worst returns during the period. Signature Bank, SVB Financial Group, and First Republic Bank detracted from fund performance for the twelve-month period ending in October.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in companies with large market capitalizations at the time of purchase. For this fund, companies with large market capitalizations are those with market capitalizations within the range of companies comprising the Russell 1000 Value Index. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.

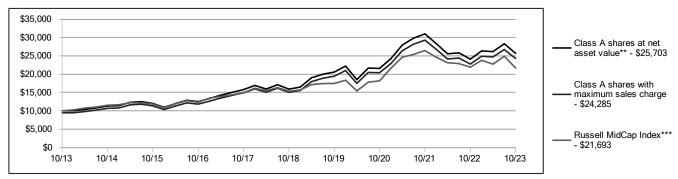

Over the year, Barrow, Hanley, Mewhinney & Strauss, LLC (Barrow Hanley) outperformed the index. Barrow Hanley's outperformance was due to strong stock selection in the industrials, information technology, and energy sectors. Westwood Management Corp's (Westwood) performance was helped by strong stock selection in the information technology and financials sectors.

Westwood underperformed the index due to poor stock selection in the consumer staples and communication services sectors. Barrow Hanley's performance was hurt by poor stock selection in the financials, consumer staples, and communication services sectors.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of purchase. For this fund, companies with medium market capitalizations are those with market capitalizations within the range of companies comprising the Russell MidCap Index. The fund also invests in foreign securities.

Over its last fiscal year, company selection in financials and industrials contributed to the MidCap Fund's relative performance. The largest contributor to performance was Copart, a global leader in providing online auction and vehicle remarketing services for salvaged vehicles. Benefitting from its scale, network effect, barriers to entry, and relationships with major insurance companies, Copart continues to post impressive results and profitably grow market share. The next largest contributor was TransDigm, a supplier of airplane components. Approximately 90% of TransDigm's parts are proprietary, and TransDigm is the sole provider in about 80% of them. This gives TransDigm pricing power and the ability to offset higher costs from inflation. Arch Capital, a provider of mortgage insurance, reinsurance, and specialty insurance, was a contributor. Arch's management understands that insurance markets are cyclical. By sitting tight during the soft market, it gave them financial flexibility to grow rapidly into a hardening market. Financial performance over the past year has been strong across all three of its businesses.

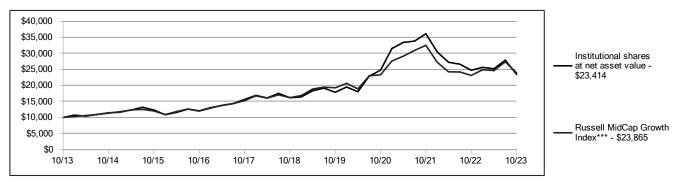

Company selection in utilities and real estate detracted from the MidCap Fund's relative performance over its last fiscal year. The Utilities sector had a negative return in the benchmark over the past twelve months, as investors had more options for finding yield. While not a traditional utility business, Brookfield Infrastructure was the largest detractor in the portfolio. Brookfield Infrastructure is an owner and operator of infrastructure assets globally. It surpassed its annual capital deployment target this year, with high quality platforms such as utility metering, last-mile fiber, data centers and residential decarbonization. Dollar General, a general store retailer focused on rural and under-served communities, was the second largest detractor. A leadership change brought new strategic initiatives, just as their core customers (typically lower income) were squeezed by inflation. CoStar was the third largest detractor. Its two main businesses, a commercial real estate data and analytics business, and online apartment marketplace, performed very well. However, shares were weak when they announced a delay in monetization of its new residential app. The Aligned team appreciated that founder Andy Florance was focused on what's best for the long-term platform rather than next quarter's revenue.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of purchase. For this fund, companies with medium market capitalizations are those with market capitalizations within the range of companies comprising the Russell MidCap Growth Index.

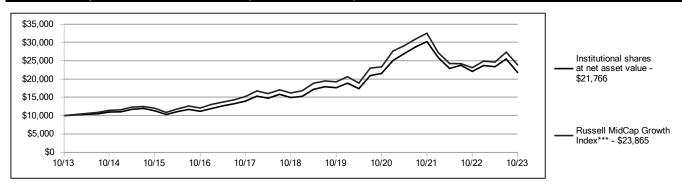

Despite seemingly favorable market conditions on the surface with the magnificent 7 tech stocks and the S&P Composite showing strong gains, difficult conditions persisted below the surface particularly down the market capitalization spectrum as the dilemma of a Federal Reserve focused on raising interest rates to stem sticky and elevated inflation juxtaposed against weakening financial conditions globally created many peaks and valleys throughout the year. While the Russell Midcap Growth Index outperformed its value counterpart during the period, rapid sector rotations were the norm depending on the most recent inflation and economic datapoints creating elevated volatility similar to 2022. Ultimately, while headline inflation readings fell as the year progressed, a significant move higher in interest rates resulted in sharp downward pressure on equity valuations driving underperformance.

The rising rate backdrop created a particularly difficult environment as leadership within the Russell MidCap Growth Index was generally driven by stocks with low valuations, including relative outperformance from shares with the slowest sales growth, characteristics in contrast to Principal Dynamic Growth's discipline, which focuses on the strong fundamentals more often found in secular growth stocks. While underperformance for the period was broad-based, stock picking in Information Technology and Financials detracted the most from performance. Conversely, modest outperformance in the Energy and Communication Services sectors provided a modest offset.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of purchase. It invests in growth equity securities, an investment strategy that emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average.

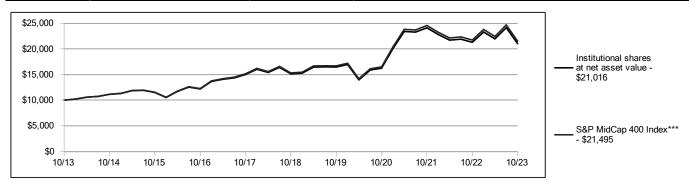

For the one-year period, Robert W. Baird & Co. Incorporated's (Baird) performance benefitted from an overweight to the industrials sector and an underweight to the healthcare sector. Eagle Asset Management's (Eagle) performance was positively impacted by strong stock selection in the consumer staples and energy sectors.

For the one-year period, both Baird and Eagle underperformed the index. Baird's underperformance was due to poor stock selection in the healthcare, industrials, and financials sectors. Eagle's underperformance was caused by poor stock selection in the information technology and consumer discretionary sectors.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies that compose the Standard & Poor's ("S&P") MidCap 400 Index at the time of purchase. The index is designed to represent U.S. equities with risk/return characteristics of the mid cap universe.

For the twelve-months ending in October 2023, the MidCap S&P 400 Index Fund was in line with the S&P MidCap 400 Index. It uses an indexing strategy and does not attempt to manage market volatility, use defensive strategies or reduce the effect of any long-term periods of negative stock market performance. Six of the eleven economic sectors in the index posted positive returns during the period, with industrials and information technology performing the best. Super Micro Computer, XPO, and Jabil contributed to fund performance for the twelve-month period ending in October.

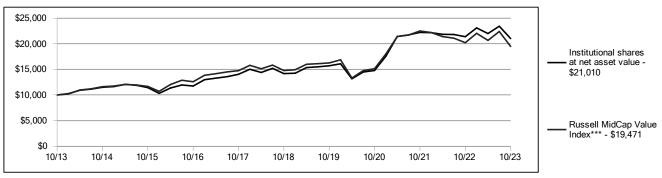

The communication services and utility sectors recorded the worst returns during the period. Wolfspeed, First Horizon, and Chart Industries detracted from fund performance for the twelve-month period ending in October.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

R-4 Shares	21.52%	5.61%	3.12%	3/1/12

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities that are tied economically to countries outside the U.S. at the time of purchase. It invests in emerging market securities. The fund invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued. It invests in equity securities of small, medium, and large market capitalization companies.

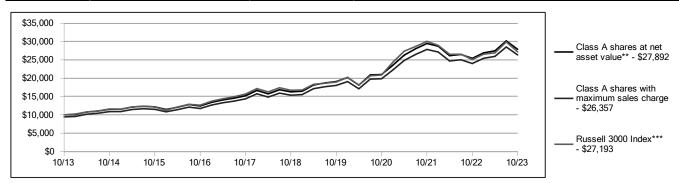

For the one-year period, Causeway Capital Management LLC (Causeway) outperformed the index. Causeway's outperformance was due to strong stock selection within the industrials and information technology sectors. Barrow, Hanley, Mewhinney & Strauss, LLC's (Barrow Hanley) performance was helped by strong stock selection within the consumer staples sector, as long as an overweight to industrials.

Barrow Hanley's underperformance was caused by poor stock selection in the consumer discretionary, financials and industrials sectors. Causeway's performance was hurt by an overweight to the information technology and consumer staples sectors.

R-5 Shares		9.85%	11.48%	10.91%	3/1/10

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide long-term growth of capital. The fund invests primarily in equity securities of companies with any market capitalization, but it has a greater exposure to large market capitalization companies than small or medium market capitalization companies. The managers seek to invest in securities of businesses that they believe are trading at a discount to their private market value (i.e., the value of the business if it was sold), have a competitive advantage, and/or that have barriers to entry in their respective industries.

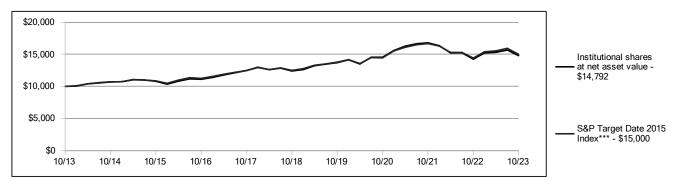

Broadcom Inc. (AVGO) aided results as the company benefitted from an artificial intelligence-driven rally along with other chip makers. Deckers Outdoor Corporation (DECK), the footwear, apparel, and accessories retailer, is best known for their UGG, HOKA and Teva brands. The HOKA Brand segment sells footwear that offers enhanced cushioning and inherent stability with minimal weight, originally designed for ultra-runners. HOKA is now a \$1 billion brand: with its revenues now accounting for nearly 40% of the Deckers' total revenue. DECK aided results as HOKA reported another record quarter. Fair Isaac Corporation (FICO) reported stronger than expected guidance for revenue growth and earnings.

Keurig Dr Pepper Inc. (KDP) detracted from relative performance as their coffee business lagged on results. FMC Corp. (FMC) provides agricultural solutions including herbicides, insecticides and miticides, fungicides, harvest aids, and other crop chemicals used for seed corn, potatoes, sorghum, sweet corn, cotton, tobacco, sunflowers, grapes, and other related products. FMC detracted from performance during the year as volumes have fallen dramatically as customers adjusted inventories. Albemarle Corporation (ALB) detracted from results as attempted bids for Liontown Resources and falling lithium prices have weighed on the stock.

# Principal LifeTime 2015 Fund

Investment Advisor: Principal Global Investors, LLC

### Value of a \$10,000 Investment\* October 31, 2013 - October 31, 2023

Performance of other share classes will differ.

Average Annual Total Returns* as of October 31, 2023				
	1-Year	5-Year	10-Year	<b>Inception Date</b>

R-4 Shares	3.41%	3.20%	3.61%	2/29/08
R-5 Shares	3.44%	3.32%	3.73%	2/29/08

### What contributed to or detracted from Fund performance during the fiscal year?

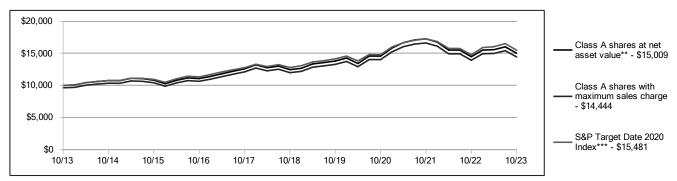

The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund" that invests according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in 2015. It is a fund of funds that invests in underlying funds of Principal Funds, Inc. ("PFI"), with a majority of the fund's assets invested in index funds. Its underlying funds consist of domestic and foreign equity funds, fixed-income funds, real asset funds, and other funds that aim to offer diversification beyond traditional equity and fixed-income securities.

The SmallCap Value II investment option contributed to performance for the year as it outperformed its index. The inclusion of a non-U.S. value strategy, Overseas, contributed from both a manager and style selection perspective. An overweight to high yield bonds across the series contributed positively to performance for the one-year period. In the near-dated portfolios, manager performance of the Short-Term Income investment option along with an overweight to the short-term bond asset class contributed positively for the year.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund" that invests according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in 2035. It is a fund of funds that invests in underlying funds of Principal Funds, Inc. ("PFI"), with a majority of the fund's assets invested in index funds. Its underlying funds consist of domestic and foreign equity funds, fixed-income funds, real asset funds, and other funds that aim to offer diversification beyond traditional equity and fixed-income securities.

The SmallCap Value II investment option contributed to performance for the year as it outperformed its index. The inclusion of a non-U.S. value strategy, Overseas, contributed from both a manager and style selection perspective. An overweight to high yield bonds across the series contributed positively to performance for the one-year period. In the near-dated portfolios, manager performance of the Short-Term Income investment option along with an overweight to the short-term bond asset class contributed positively for the year.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks a total return consisting of long-term growth of capital and current income. The fund operates as a "target date fund" that invests according to an asset allocation strategy designed for investors having a retirement investment goal close to the year in 2050. It is a fund of funds that invests in underlying funds of Principal Funds, Inc. ("PFI"), with a majority of the fund's assets invested in index funds. Its underlying funds consist of domestic and foreign equity funds, fixed-income funds, real asset funds, and other funds that aim to offer diversification beyond traditional equity and fixed-income securities.

An overweight to high yield bonds across the series contributed positively to performance for the one-year period. The Short-Term Income investment option, held only in the near-dated vintages, outperformed its index for the year. An overweight to short-term bonds in the near-dated vintages also contributed for the period.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional share class, adjusted for the fees and expense of the share class.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to generate a total return. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies principally engaged in the real estate industry at the time of purchase. It invests in equity securities regardless of market capitalization (small, medium or large). The fund concentrates its investments (invest more than 25% of its net assets) in securities in the real estate industry. It is non-diversified.

Selection within U.S. healthcare, net lease, and apartments was a top contributor. Within healthcare, the fund benefitted from an overweight to outperforming senior housing stocks on continued strong fundamentals and underweight to stocks with weaker earnings. An underweight to net lease contributed, as the overall sector was impacted by concerns over rising rates impacting their growth potential. Our preference for coastal over Sunbelt apartment Real Estate Investment Trusts (REITs) also contributed, as there are continued concerns regarding elevated supply in the latter market.

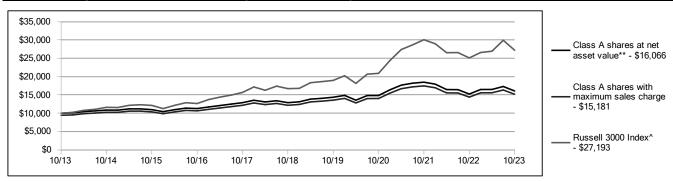

Selection within U.S. industrial detracted, as we were overweight to a company with exposure to slowing Southern California conditions. An underweight to strength in U.S. data centers was detractive, as the sector outperformed on elevated artificial intelligence expectations. An underweight to U.S. retail also hurt as a more resilient than expected U.S. consumer and improving operating metrics led the sector to outperform.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

R-5 Shares		5.51%	4.60%	4.93%	1/16/07

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide as high a level of total return (consisting of reinvested income and capital appreciation) as is consistent with reasonable risk. The fund operates as funds of funds and generally invests: between 20% and 60% of its assets in fixed-income funds, and less than 40% in any one fixed-income fund; between 40% and 80% of its assets in equity funds, and less than 30% in any one equity fund; and less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund.

The portfolio's allocation in U.S. large cap growth equities, which outperformed their value counterparts, was the largest positive contributor to performance for the period. In addition, security selection in U.S. mega cap equities aided performance for the period. Lastly, security selection in U.S. mid cap equities positively contributed to performance for the period.

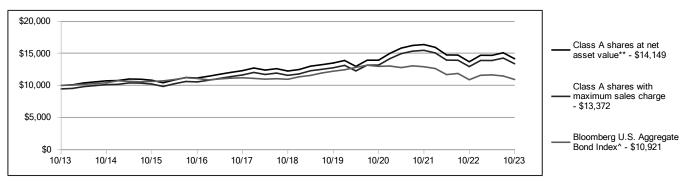

The portfolio's allocation in U.S. large cap value equities, which underperformed their growth counterparts, was the largest detractor to performance for the period. In addition, relative to the benchmark, the portfolio's tactical allocation of neutral to equity, underweight to fixed income, and overweight to alternative & specialty securities hindered performance for the period. Lastly, the portfolio's allocation in U.S. mid cap equities, which underperformed their large cap counterparts, negatively contributed to performance for the period.

<sup>^</sup> The Fund uses a blended benchmark, SAM Balanced Blended Index, which shows how the Fund's performance compares to a blend of indices with similar investment objectives. SAM Balanced Blended Index is composed of 45% Russell 3000 Index, 40% Bloomberg U.S. Aggregate Bond Index, and 15% MSCI EAFE Index NTR. Performance shown for the benchmark assumes reinvestment of all dividends and distributions. Indices are unmanaged, and individuals cannot invest directly in an index.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide long-term capital appreciation. The Portfolios operate as funds of funds. It generally invests: between 75% and 100% of its assets in equity funds, and less than 50% in any one equity fund; less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund; such funds generally offer unique combinations of traditional equity securities or use alternative investment strategies that aim to offer diversification beyond traditional equity securities and include investments in such assets as infrastructure, commodities, currencies, and natural resources companies.

The portfolio's allocation in U.S. large cap growth equities, which outperformed their value counterparts, was the largest positive contributor to performance for the period. In addition, security selection in U.S. mega cap equities aided performance for the period. Lastly, security selection in U.S. mid cap equities positively contributed to performance for the period.

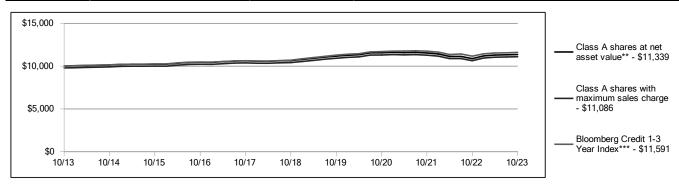

The portfolio's allocation in U.S. large cap value equities, which underperformed their growth counterparts, was the largest detractor to performance for the period. In addition, the portfolio's allocation in U.S. mid cap equities, which underperformed their large cap counterparts, hindered performance for the period. Lastly, relative to the benchmark, the portfolio's tactical allocation of a slight neutral to equity, underweight to fixed income, and overweight to alternative & specialty securities negatively contributed to performance for the period.

<sup>^</sup> The Fund uses a blended benchmark, SAM Strategic Growth Blended Index, which shows how the Fund's performance compares to a blend of indices with similar investment objectives. SAM Strategic Growth Blended Index is composed of 70% Russell 3000 Index, 25% MSCI EAFE Index NTR, and 5% Bloomberg U.S. Aggregate Bond Index. Performance shown for the benchmark assumes reinvestment of all dividends and distributions. Indices are unmanaged, and individuals cannot invest directly in an index.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks as high a level of current income as is consistent with prudent investment management and stability of principal. The fund invests primarily in high quality short-term bonds and other fixed-income securities that, at the time of purchase, are rated BBB- or higher by S&P Global or Baa3 or higher by Moody's. It maintains an effective maturity of five years or less and an average portfolio duration that is within  $\pm 15\%$  of the duration of the Bloomberg Credit 1-3 Year Index.

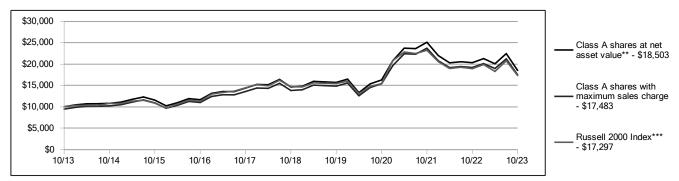

The Short-Term Income Fund (Fund) benefitted from strong sector allocation and issue selection. While the Fed continued its rate hikes during the last twelve months, the Fund's out-of-benchmark allocation to Commercial Mortgage-Backed Securities and Asset-Backed Securities were major contributors to performance. Many of these securities were floating-rate, and thus less impacted by the rate hikes. The Fund also benefited from its Issue Selection in Banking, with an overweight position in the Money Center banks and an underweight position in the Superregional banks.

The Yield Curve position detracted from performance. Most of the Fund is composed of fixed-rate securities, so higher interest rates and the Yield Curve impact on the fund were negative.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with small market capitalizations at the time of purchase. The managers seek to invest in securities of companies that they believe have improving and sustainable business fundamentals, rising investor expectations, and attractive relative valuations.

Modine Manufacturing, which produces a variety of thermal management products for a diverse set of end markets, outperformed following strong quarterly results while raising their full-year outlook. Results benefited from pricing actions and healthy end market demand. Manhattan Associates, a provider of supply chain management software, outperformed as the most recent quarterly results showed that supply chain software demand remains strong while the transition to a cloud-based and subscription business model is progressing well. Horizon Therapeutics, a biotechnology company focused on rare diseases, received acquisition interest during the year from multiple larger pharmaceutical companies and ultimately agreed to be acquired by Amgen at a significant premium. Taylor Morrison Home, a single-family homebuilder, outperformed amid a stabilization in mortgage rates and related improvement in home-buyer demand indicators. Gulfport Energy, an independent oil natural gas exploration and production company, performed well amid elevated oil and natural gas prices. The company has remained disciplined and focused on returning capital to shareholders via share buy backs and dividends.

Darling Ingredients, which engages in the refinement of edible and inedible bio-nutrients, underperformed following a preliminary U.S. Environmental Protection Agency (EPA) proposal that would likely reduce profitability within Darling's Diamond Green Diesel joint venture which focuses on biodiesel. United Community Bank, is a Georgia base bank serving the southeastern U.S., saw its shares pull back sharply along with other regional banks as investors questioned the viability and deposit safety of the U.S. banking system. Specifically, investors appeared to take an unfavorable view of the bank's above-average loan growth a greater reliance on deposit funding compared to other regional banks. An absence of exposure in the second quarter of 2023 to Super Micro, a provider of high-performance server and storage systems, negatively impacted negative performance as the company was up over 100% amid recent artificial intelligence advancements that are boosting demand for its accelerated compute platforms. Concentrix, a provider of customer service outsourcing services, underperformed amid the announcement

# SmallCap Fund

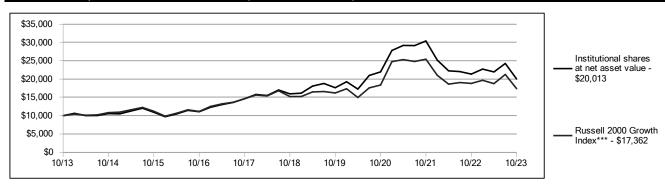

of the sizable acquisition of Webhelp, which will increase leverage and is set to close by the end of 2023. Additionally, concerns about the potential negative impacts that the recent artificial intelligence advancements could have on demand for their services weighed on the shares. Chart Industries, a company focused on producing engineering products that convert liquids into gases, was down sharply following lower-than-expected earnings and lowered guidance. The company also has a higher-than-average debt level following their acquisition of Howden late last year which further weighed on the price amid investors' concerns about the timing in which they would pay down their debt.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with small market capitalizations at the time of purchase. The fund may invest up to 30% of the fund's assets using an index sampling strategy designed to match the performance of the Russell 2000 Growth Index.

In the one-year period, Brown Advisory, LLC (Brown), Emerald Advisors, LLC (Emerald), and AllianceBernstein, L.P. (AllianceBernstein) outperformed the index. Emerald contributed to results due to strong stock selection within healthcare stocks. Brown outperformed the index due to strong stock selection within the communication services and healthcare sectors. Alliance Bernstein outperformed due to strong stock selection within the information technology, industrials, and energy sectors.

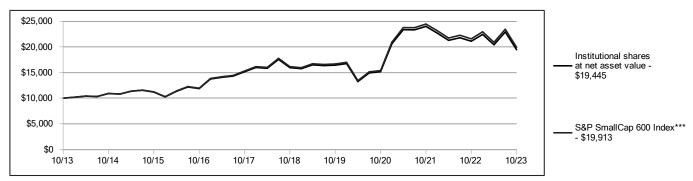

Over the period, Emerald's performance was hurt by poor stock selection within the industrials and consumer discretionary sectors. Brown's performance was hurt by poor stock selection within the consumer discretionary and financials sectors. AllianceBernstein's performance was hurt by poor stock selection within the health care and consumer staples sectors.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies that compose the Standard & Poor's ("S&P") SmallCap 600 Index at the time of purchase. The index is designed to represent U.S. equities with risk/return characteristics of the small cap universe. The fund uses derivative strategies and invests in exchange-traded funds ("ETFs").

During the twelve-month period ending in October 2023, the SmallCap S&P 600 Index Fund was in line with the S&P SmallCap 600 Index. It uses an indexing strategy and does not attempt to manage market volatility, use defensive strategies or reduce the effect of any long-term periods of negative stock market performance. Three of the eleven economic sectors in the index posted positive returns during the period, with industrials and consumer discretionary performing the best. Abercrombie & Fitch, Axcelis Technologies, and e.l.f. Beauty contributed to fund performance for the twelve-month period ending in October.

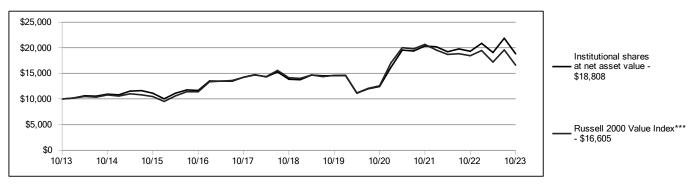

The healthcare and financial sectors lagged. Clearfield, Adtran Holdings, and AdaptHealth detracted from fund performance for the twelve-month period ending in October.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's R-3 share class, adjusted for the fees and expense of the share class.

#### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with small market capitalizations at the time of purchase. It invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued. The fund also invests in real estate investment trusts ("REITs").

For the one-year period, both Vaughan Nelson Investment Management, LP (Vaughan Nelson) and Hotchkis and Wiley capital Management, LLC (Hotchkis & Wiley) outperformed the benchmark by a wide margin. Vaughan Nelson contributed to performance with strong stock selection in the information technology sector. An overweight to industrials and an underweight to financials also benefitted performance. Hotchkis & Wiley outperformed due to an underweight to the healthcare sector and strong stock selection to the consumer discretionary and financials sectors.

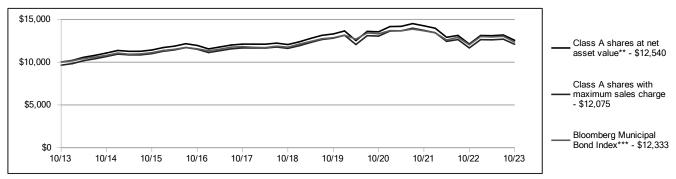

Vaughan Nelson's performance was hurt by poor stock selection in the energy sector. An underweight to energy also detracted from performance. Hotchkis & Wiley's performance was hurt from poor stock selection in the energy and materials sectors.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Institutional class, adjusted for the fees and expense of the share class.

### What contributed to or detracted from Fund performance during the fiscal year?

The investment seeks to provide a high level of income that is exempt from federal income tax while protecting investors' capital. The fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in tax-exempt bonds (securities issued by or on behalf of state or local governments and other public authorities) at the time of purchase. It also invests in inverse floating rate obligations (variable rate debt instruments that pay interest at rates that move in the opposite direction of prevailing interest rates), which are generally more volatile than other types of municipal obligations and may involve leverage.

For the twelve-month period, yields on the Bloomberg Municipal Bond Index modestly increased however the broad municipal market had a gain because of the higher yields. Tax-exempt Bond Fund outperformed its benchmark. Duration, sector allocation and security selection were positive contributors. During the fiscal year ending October 31, 2023, the top sector contributors were transportation, city, and tobacco while the top individual security contributors were Brightline Trains, State of Illinois and the Metropolitan Pier and Exposition Authority (Chicago).

The top sector detractors for the fiscal year included waste, hospital, and healthcare while the top individual security detractors were Tobacco Settlement New Jersey, Westchester Medical Center, Fairfax County, Virginia.

<sup>^</sup> Extended performance is calculated based on the historical performance of the Fund's Class A share class, adjusted for the fees and expense of the share class.

(the "Fund") is registered under the Investment Company Act of 1940, as amended, (the "1940 Act") as an open-end management investment company and operates as a series fund in the mutual fund industry. The financial statements for California Municipal Fund, Core Fixed Income Fund, Core Plus Bond Fund, Diversified Income Fund, Diversified International Fund, Equity Income Fund, Finisterre Emerging Markets Total Return Bond Fund, Global Emerging Markets Fund, Global Real Estate Securities Fund, Government & High Quality Bond Fund, Government Money Market Fund, High Income Fund, High Yield Fund, Inflation Protection Fund, International Fund I, LargeCap Growth Fund I, LargeCap S&P 500 Index Fund, LargeCap Value Fund III, MidCap Fund, MidCap Growth Fund, MidCap Growth Fund III, MidCap S&P 400 Index Fund, MidCap Value Fund I, Money Market Fund, Overseas Fund, Principal Capital Appreciation Fund, Principal LifeTime 2015 Fund, Principal LifeTime 2020 Fund, Principal LifeTime 2025 Fund, Principal LifeTime 2030 Fund, Principal LifeTime 2035 Fund, Principal LifeTime 2040 Fund, Principal LifeTime 2045 Fund, Principal LifeTime 2050 Fund, Principal LifeTime 2055 Fund, Principal LifeTime 2050 Fund, LifeTime 2060 Fund, Principal LifeTime 2065 Fund, Principal LifeTime 2070 Fund, Principal LifeTime Hybrid 2015 Fund, Principal LifeTime Hybrid 2020 Fund, Principal LifeTime Hybrid 2025 Fund, Principal LifeTime Hybrid 2030 Fund, Principal LifeTime Hybrid 2035 Fund, Principal LifeTime Hybrid 2040 Fund, Principal LifeTime Hybrid 2045 Fund, Principal LifeTime Hybrid 2050 Fund, Principal L 2055 Fund, Principal LifeTime Hybrid 2060 Fund, Principal LifeTime Hybrid 2065 Fund, Principal LifeTime Hybrid 2070, Principal LifeTime Hybrid Income Fund, Principal LifeTime Strategic Income Fund, Real Estate Securities Fund, SAM Balanced Portfolio, SAM Conservative Balanced Portfolio, SAM Conservative Growth Portfolio, SAM Flexible Income Portfolio, SAM Strategic Growth Portfolio, Short-Term Income Fund, SmallCap Fund, SmallCap Growth Fund I, SmallCap S&P 600 Index Fund, SmallCap Value Fund II, and Tax-Exempt Bond Fund, series of the Fund, (known as the "Funds") are presented herein. Principal LifeTime 2015 Fund, Principal LifeTime 2020 Fund, Principal LifeTime 2025 Fund, Principal LifeTime 2030 Fund, Principal LifeTime 2035 Fund, Principal LifeTime 2040 Fund, Principal LifeTime 2045 Fund, Principal LifeTime 2040 Fund, LifeTime 2050 Fund, Principal LifeTime 2055 Fund, Principal LifeTime 2060 Fund, Principal LifeTime 2060 Fund, Principal LifeTime 2070 Fund, and Principal LifeTime Strategic Income Fund are referred to collectively as the "Principal LifeTime Funds". Principal LifeTime Hybrid 2015 Fund, Principal LifeTime Hybrid 2020 Fund, Principal LifeTime Hybrid 2025 Fund, Principal LifeTime Hybrid 2030 Fund, Principal LifeTime Hybrid 2035 Fund, Principal LifeTime Hybrid 2040 Fund, Principal LifeTime Hybrid 2045 Fund, Principal LifeTime Hybrid 2050 Fund, Principal LifeTime Hybrid 2055 Fund, Principal LifeTime Hybrid 2060 Fund, Principal LifeTime Hybrid 2065 Fund, Principal LifeTime Hybrid 2070, and Principal LifeTime Hybrid Income Fund are referred to collectively as the "Principal LifeTime Hybrid Funds". SAM Balanced, SAM Conservative Balanced Portfolio, SAM Conservative Growth Portfolio, SAM Flexible Income Portfolio, and SAM Strategic Growth Portfolio are referred to collectively as the "SAM Portfolios". The Funds may offer up to nine classes of shares: Class A, Class J, Institutional, R-1, R-3, R-4, R-5, and R-6.

Each of the Funds is an investment company and applies specialized accounting and reporting under Accounting Standards Codification ("ASC") Topic 946, *Financial Services - Investment Companies*. The Funds have not provided financial support and are not contractually required to provide financial support to any investee.

Effective January 3, 2022, International Emerging Markets Fund changed its name to Global Emerging Markets Fund.

Effective February 25, 2022, Class A shares were liquidated for Finisterre Emerging Markets Total Return Bond Fund.

Effective March 1, 2022, Global Diversified Income Fund changed its name to Diversified Income Fund.

Effective May 6, 2022, Class C shares discontinued and converted into Class A shares for the following Funds:

Diversified International Fund Global Real Estate Securities Fund Global Emerging Markets Fund Government & High Quality Bond Fund

Effective December 12, 2022, Institutional shares converted into R-6 shares of Government Money Market Fund and R-6 shares commenced operations. On December 14, 2022, Principal Global Investors, LLC (the "Manager") made a \$10,000 purchase of Institutional shares.

Effective January 13, 2023, R-1 shares discontinued and converted into R-3 shares for Overseas Fund.

Effective March 1, 2023, Principal LifeTime 2070 Fund commenced operations with the Manager making an initial \$10,000 purchase of each Class J, Institutional, R-1, R-3, R-4, and R-5 shares.

Effective March 1, 2023, Principal LifeTime Hybrid 2070 Fund commenced operations with the Manager making an initial \$10,000 purchase of each Class J, Institutional, and R-6 shares.

Effective May 12, 2023, Principal LifeTime Strategic Income Fund acquired all the assets and assumed all the liabilities of Principal LifeTime 2010 Fund, a series of the Fund, pursuant to a plan of reorganization approved by shareholders September 13, 2022. The purpose of the acquisition

#### 1. Organization (continued)

was to combine two funds managed by the Manager with similar investment objectives, principal policies, and risks. The acquisition was accomplished by a tax-free exchange of 46,483,000 shares from Principal LifeTime 2010 Fund for 48,359,000 shares valued at \$506,997,000 of Principal LifeTime Strategic Income Fund at an approximate exchange rate of 1.04 for all classes of shares. The investment securities of Principal LifeTime 2010 Fund, with a fair value of approximately \$506,651,000 and a cost of \$530,955,000 and \$110,000 cash were the primary assets acquired by Principal LifeTime Strategic Income Fund on May 12, 2023. For financial reporting purposes, assets received, and shares issued by Principal LifeTime Strategic Income Fund were recorded at fair value; however, the cost basis of the investments received from Principal LifeTime 2010 Fund were maintained through the reorganization. The net assets of Principal LifeTime 2010 Fund and Principal LifeTime Strategic Income Fund immediately prior to the acquisition in accordance with U.S. GAAP were approximately \$507,031,000 (\$882,000 of accumulated realized loss) and \$341,098,000, respectively. The aggregate net assets of Principal LifeTime Strategic Income Fund immediately following the acquisition was \$848,129,000. In accordance with Sections 381-384 of the Internal Revenue Code, a portion of accumulated realized losses may be subject to limitation.

Assuming the acquisition had been completed on November 1, 2022, the beginning of the fiscal year for Principal LifeTime Strategic Income Fund, Principal LifeTime Strategic Income Fund's pro forma results of operations for the period ended October 31, 2023, would have been \$24,949,000 of net investment income, \$8,418,000 of net realized and unrealized gain on investments, and \$33,367,000 of net increase in net assets resulting from operations. Because the combined investment portfolios have been managed as a single integrated portfolio since the acquisition was completed, it is not practicable to separate the amounts of revenue and earnings of Principal LifeTime 2010 Fund that have been included in Principal LifeTime Strategic Income Fund's statement of operations since May 12, 2023.

Effective May 19, 2023, Class C shares discontinued and converted into Class A shares for the following Funds:

Core Fixed Income Fund Principal Capital Appreciation Fund

LargeCap S&P 500 Index Fund SmallCap Fund

All classes of shares for each of the Funds represent interests in the same portfolio of investments and will vote together as a single class except where otherwise required by law or as determined by the Fund's Board of Directors. In addition, the Fund's Board of Directors declares separate dividends on each class of shares.

#### 2. Significant Accounting Policies

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The following summarizes the significant accounting policies of the Funds:

Security Valuation. The Funds may invest in other series of the Fund and other investment funds, which may include closed-end investment companies, exchange-traded funds, money market funds and other registered open-end investment companies. Investments in registered open-end investment companies, other than exchange-traded funds, are valued at the respective fund's closing net asset value per share on the day of valuation.

The Funds (with the exception of Government Money Market Fund, Money Market Fund, Principal LifeTime Funds, Principal LifeTime Hybrid Funds, and the SAM Portfolios) value securities, including exchange-traded funds, for which market quotations are readily available at fair value, which is determined using the last reported sale price. If no sales are reported, as is regularly the case for some securities traded over-the-counter, securities are valued using the last reported bid price or an evaluated bid price provided by a pricing service. Pricing services use modeling techniques that incorporate security characteristics such as current quotations by broker/dealers, coupon, maturity, quality, type of issue, trading characteristics, other yield and risk factors, and other market conditions to determine an evaluated bid price. When reliable market quotations are not considered to be readily available, which may be the case, for example, with respect to restricted securities, certain debt securities, preferred stocks, and foreign securities, the investments are valued at their fair value as determined in good faith by the Manager under procedures established and periodically reviewed by the Fund's Board of Directors.

The value of foreign securities used in computing the net asset value per share is generally determined as of the close of the foreign exchange where the security is principally traded. Events that occur after the close of the applicable foreign market or exchange but prior to the calculation of the Funds' net asset values are reflected in the Funds' net asset values and these securities are valued at fair value. Many factors, provided by independent pricing services, are reviewed in the course of making a good faith determination of a security's fair value, including, but not limited to, price movements in American depository receipts ("ADRs"), futures contracts, industry indices, general indices, and foreign currencies.

## 2. Significant Accounting Policies (continued)

To the extent the Funds invest in foreign securities listed on foreign exchanges which trade on days on which the Funds do not determine net asset values, for example, weekends and other customary national U.S. holidays, the Funds' net asset values could be significantly affected on days when shareholders cannot purchase or redeem shares.

Certain securities issued by companies in emerging market countries may have more than one quoted valuation at any given point in time, sometimes referred to as a "local" price and a "premium" price. The premium price is often a negotiated price, which may not consistently represent a price at which a specific transaction can be effected. It is the policy of the Fund to value such securities at prices at which it is expected those shares may be sold, and the Manager or any sub-advisor, is authorized to make such determinations subject to such oversight by the Fund's Board of Directors, as may occasionally be necessary.

Government Money Market Fund qualifies as a government/agency money market fund. Money Market Fund qualifies as a retail money market fund. The two funds value their securities, other than holdings of other publicly traded investment funds, at amortized cost as permitted under Rule 2a-7 of the 1940 Act. Under the amortized cost method, a security is valued by applying a constant yield to maturity of the difference between the principal amount due at maturity and the cost of the security to the Funds.

Currency Translation. Foreign holdings are translated to U.S. dollars using the exchange rate at the daily close of the New York Stock Exchange. The identified cost of the Funds' holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when received or paid, with daily accruals of such amounts reported at approximate rates prevailing at the date of valuation. Since the carrying amount of the foreign securities is determined based on the exchange rate and market values at the close of the period, it is not practicable to isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the period.

Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between trade and settlement dates on security transactions, and the difference between the amount of dividends, interest income, interest expense, and foreign withholding taxes recorded on the books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized appreciation (depreciation) on translation of assets and liabilities in foreign currencies arise from changes in the exchange rate relating to assets and liabilities, other than investments in securities, purchased and held in non-U.S. denominated currencies.

The following Funds held securities denominated in foreign currencies that exceeded 5% of net assets of the respective fund as of October 31, 2023:

Diversified International Fund	
Euro	20.6%
British Pound Sterling	17.0
Japanese Yen	15.4
Canadian Dollar	8.4
Finisterre Emerging Markets Total Return Bond Fund	
Euro	8.1%
Mexican Peso	5.3

International Fund I	
Euro	21.3%
British Pound Sterling	12.1
Japanese Yen	10.4
Canadian Dollar	7.0
Swiss Franc	6.0
New Taiwan Dollar	5.4

## 2. Significant Accounting Policies (continued)

Overseas Fund	
Euro	34.5%
British Pound Sterling	23.1
Japanese Yen	13.7

**Income and Investment Transactions.** The Funds record investment transactions on a trade date basis. Trade date for senior floating rate interests purchased in the primary market is considered the date on which the loan allocations are determined. Trade date for senior floating rate interests purchased in the secondary market is the date on which the transaction is entered into. The identified cost basis has been used in determining the net realized gain or loss from investment transactions and unrealized appreciation or depreciation of investments. The Funds record dividend income on the ex-dividend date, except dividend income from foreign securities whereby the ex-dividend date has passed; such dividends are recorded as soon as the Funds are informed of the ex-dividend date. Interest income is recognized on an accrual basis. Payment in kind ("PIK") income is computed on the value of the securities received at the contractual rate specified in each loan agreement. Discounts and premiums on securities are accreted/amortized, respectively, on the level yield method over the expected lives of the respective securities. Callable debt securities purchased at a premium are amortized to the earliest call date and to the callable amount, if other than par. The Funds allocate all income and realized and unrealized gains or losses on a daily basis to each class of shares based upon the relative proportion of the value of shares outstanding (number of settled shares outstanding for Government Money Market Fund and Money Market Fund) of each class.

Distributions received from other series of the Fund and other investment companies (collectively, "Underlying Funds") are recorded in accordance with the character of the distributions as designated by the Underlying Funds. Distributions received from Real Estate Investment Trusts ("REITs") may be characterized as ordinary income, capital gain, or a return of capital to the Funds. The proper characterization of distributions from REITs is generally not known until after the end of each calendar year. As such, estimates are used in reporting the character of income and distributions for financial statement purposes. Global Real Estate Securities Fund and Real Estate Securities Fund receive substantial distributions from holdings in REITs.

**Expenses.** Expenses directly attributed to a particular fund are charged to that fund. Other expenses not directly attributed to a particular fund are apportioned among the registered investment companies managed by the Manager.

Management fees are allocated daily to each class of shares based upon the relative proportion of the value of shares outstanding (number of settled shares outstanding for Government Money Market Fund and Money Market Fund) of each class. Expenses specifically attributable to a particular class are charged directly to such class and are included separately in the statements of operations. Certain of the transfer agent expenses may be reduced by the impact of interest earned during the period between when a redemption occurs and the funds are settled.

In addition to the expenses the Funds bear directly, each of the Funds may indirectly bear a pro rata share of the fees and expenses of the Underlying Funds in which they invest. Because the Underlying Funds have varied expense levels and each of the Funds may own different proportions of the Underlying Funds at different times, the amount of expense incurred indirectly by each of the Funds will vary. Expenses included in the statements of operations and financial highlights of the Funds do not include any expenses associated with the Underlying Funds.

Dividends and Distributions to Shareholders. With respect to Government Money Market Fund and Money Market Fund, all net investment income and any realized gains from investment transactions are declared as dividends daily to settled shares of record as of that day. With respect to California Municipal Fund, Core Fixed Income Fund, Government & High Quality Bond Fund, High Yield Fund, Short-Term Income Fund and Tax-Exempt Bond Fund, net investment income is declared as dividends daily to settled shares of record as of that day, and all distributions of realized gains from investment transactions are recorded on the ex-dividend date. Dividends and distributions to shareholders of the other Funds are recorded on the ex-dividend date. Dividends and distributions to shareholders from net investment income and net realized gain from investments and foreign currency transactions are determined in accordance with federal tax regulations, which may differ from U.S. GAAP. These differences are primarily due to differing treatments for amortization of premiums and discounts, net operating losses, foreign currency transactions, options and futures contracts, certain defaulted securities, sales of passive foreign investment companies, losses deferred due to wash sales, tax straddles, mortgage-backed securities, certain preferred securities, swap agreements, short sales, partnership investments, REITs, utilization of earnings and profits distributed to shareholders on redemption of shares, and limitations imposed by Sections 381-384 of the Internal Revenue Code. Permanent book and tax basis differences are reclassified within the capital accounts based on federal tax-basis treatment; temporary differences do not require reclassification. To the extent dividends and distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as return of capital distributions.

**Federal Income Taxes.** No provision for federal income taxes is considered necessary because each of the Funds intends to qualify as a "regulated investment company" under the Internal Revenue Code and intends to distribute each year substantially all of its net investment income and realized capital gains to shareholders.

## 2. Significant Accounting Policies (continued)

Management evaluates tax positions taken or expected to be taken in the course of preparing the Funds' tax returns to determine whether it is "more likely than not" that each tax position would be sustained upon examination by a taxing authority based on the technical merits of the position. Tax positions not deemed to meet the "more likely than not" threshold would be recorded as a tax benefit or expense in the current year. The Funds recognize interest and penalties, if any, related to unrecognized tax positions as tax expense on the statements of operations. During the year ended October 31, 2023, the Funds did not record any such tax benefit or expense in the accompanying financial statements. The statute of limitations remains open for the last three years, once a return is filed. No examinations are in progress at this time.

Foreign Taxes. The Funds may be subject to foreign income taxes imposed by certain countries in which they invest. Foreign income taxes are accrued by the Funds as a reduction of income. These amounts are shown as withholding tax on the statements of operations. In consideration of recent decisions rendered by European courts, certain of the Funds have filed for additional tax reclaims for taxes withheld in prior years. Due to the uncertainty regarding collectability and timing of these reclaims, among other factors, a corresponding receivable will only be recognized when the tax position meets the "more likely than not" threshold. Any accrued foreign tax reclaims receivables are included in dividends and interest receivables on the statements of assets and liabilities. Any foreign tax reclaims income is included in foreign tax reclaims on the statements of operations.

In the event that foreign tax reclaims received during the fiscal year exceed foreign withholding tax paid, and a fund previously passed through foreign tax credits to its shareholders, a fund will enter into a closing agreement with the Internal Revenue Service ("IRS"), in order to pay the associated tax liability on behalf of the fund's shareholders. Any IRS closing agreement fees related to foreign tax reclaims are reflected as a reduction to income on the statements of operations. Any accrued IRS closing agreement fees related to foreign tax reclaims are reflected on the statements of assets and liabilities.

Gains realized upon the disposition of certain foreign securities held by certain Funds may be subject to capital gains tax, payable prior to the repatriation of sale proceeds. The tax is computed on certain net realized gains and, if any, is shown on the statements of operations. Realized losses in excess of gains may be carried forward to offset future gains. In addition, the Funds accrue an estimated tax liability for future gains on certain foreign securities. Any foreign tax refund receivables and any accrued foreign tax liabilities are shown on the statements of assets and liabilities.

**Recent Accounting Pronouncements.** In March 2020, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2020-04 *Reference Rate Reform (Topic 848); Facilitation of the Effects of Reference Rate Reform on Financial Reporting,* which provides optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform. The guidance is applicable to contracts referencing London Interbank Offered Rate ("LIBOR") or another reference rate that is expected to be discontinued due to reference rate reform. The ASU is effective as of March 12, 2020 and generally can be applied through December 31, 2022. In December 2022, the FASB issued ASU No. 2022-06 *Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848* which updates and clarifies ASU No. 2020-04. The amendments in this ASU defer the sunset date of Topic 848 from December 31, 2022, to December 31, 2024. Management expects the impact of these ASUs will not have a material impact on the Funds' financial statements.

In June 2022, the FASB issued ASU No. 2022-03 Fair Value Measurement (Topic 820); Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions, which provides clarifying guidance that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. The ASU is effective for fiscal years beginning after December 15, 2023, and interim periods within those fiscal years. Management expects the ASU will not have a material impact on the Funds' financial statements.

## 3. Operating Policies

**Borrowings.** Pursuant to an exemptive order issued by the Securities and Exchange Commission (the "SEC"), the Funds and other registered investment companies managed by the Manager may participate in an interfund lending facility ("Facility"). The Facility allows the Funds to borrow money from or loan money to the other participants. Loans under the Facility are made to handle unusual and/or unanticipated short-term cash requirements. Interest paid and received on borrowings is the average of the current repurchase agreement rate and the bank loan rate plus the applicable margin of 1.00%. The bank loan rate equals the higher of (i) the Federal Funds Rate or (ii) the Secured Overnight Financing Rate ("SOFR") plus .10% ("Adjusted SOFR"). If the Federal Funds Rate or the Adjusted SOFR is less than zero, it shall be deemed to be zero for purposes of calculating such rate. The interest income received is included in interest income on the statements of operations. The interest expense associated with these borrowings is included in other expenses on the statements of operations. Any outstanding lending as of October 31, 2023 is included in interfund lending on the statements of assets and liabilities. Any outstanding borrowing as of October 31, 2023 is included in interfund borrowing on the statements of assets and liabilities.

During the year ended October 31, 2023, Funds lending to the Facility were as follows (amounts in thousands):

	Weighted Average					
	Ave	rage Daily	Annual Interes	št		
	Amo	unt Loaned	Rate	Inter	est Income	
Core Fixed Income Fund	\$	710	5.01%	\$	36

Real Estate Securities Fund	1,191	4.48	53			
SmallCap Fund	46	5.70	3			
SmallCap S&P 600 Index Fund	81	5.06	4			

In addition, the Funds participate with other registered investment companies managed by the Manager in an unsecured joint line of credit with a group of financial institutions which allows the participants to borrow up to \$250 million, collectively. Borrowings are made solely to facilitate the handling of unusual and/or unanticipated short-term cash requirements. The line of credit is available under a group of revolving financial institutions and lending is carried out with unaffiliated financial institutions. Interest is charged to each participant, based on its borrowings, at a rate equal to the higher of the Federal Funds Rate or the Adjusted SOFR plus the applicable margin of 1.00%. If the Federal Funds Rate or the Adjusted SOFR is less than zero, it shall be deemed to be zero for purposes of calculating such rate. Additionally, a commitment fee is charged at an annual rate of .15% on the amount of the line of credit which is allocated to each participant based on average net assets. The interest expense associated with these borrowings is included in other expenses on the statements of operations. Any outstanding borrowing as of October 31, 2023 is included in borrowing on the statements of assets and liabilities.

During the year ended October 31, 2023, Funds borrowing against the line of credit were as follows (amounts in thousands):

			Weighted Average	
	Averag	Average Daily		
	Amount	Borrowed	Rate	
SAM Conservative Growth Portfolio	\$	5	6.49%	
Tax-Exempt Bond Fund		149	7.13	

Credit Linked Structured Notes. Certain of the Funds invest in credit linked structured notes whose market values are primarily derived from changes in the value of various credit indices and other factors. Valuations on these securities may be volatile as the payment features on certain notes may contain attributes that multiply the effects of changes in the values of the underlying indices. Credit linked structured notes may entail a greater degree of market risk than other types of debt securities. Credit linked structured notes may also be more volatile, less liquid, and more difficult to accurately price than less complex securities or more traditional debt securities. Fluctuations in the fair value of the credit linked structured notes are recorded as unrealized gains and losses in the accompanying financial statements. Interest income is accrued daily. These notes are subject to prepayment, credit, and interest rate risks. At maturity, or when a note is sold, the fund records a realized gain or loss.

Contingent Convertible Securities. As footnoted in the schedules of investments, certain of the Funds invest in contingent convertible securities ("CoCos"). CoCos are hybrid debt securities that may convert into equity or have their principal written down upon the occurrence of certain "triggers." Although a contingent convertible security's equity conversion and principal write-down features are tailored to the particular issuing banking institution and its regulatory requirements, triggers are generally linked to regulatory capital thresholds or regulatory actions calling into question such institution's continued viability as a going-concern. CoCos may have no stated maturity and fully discretionary coupons, which means coupon payments can be canceled at the issuing banking institution's discretion or at the request of the relevant regulatory authority without causing a default. To provide the appropriate regulatory capital treatment, CoCos are usually issued in the form of subordinated debt instruments that rank junior to the claims of holders of more senior obligations in the event of the issuer's liquidation. If CoCos are converted into equity securities due to a trigger event, holders will be further subordinated. The future value of CoCos is unpredictable and is influenced by many factors including, without limitation: the creditworthiness of the issuer and/or fluctuations in such issuer's applicable capital ratios; supply and demand for CoCos; general market conditions and available liquidity; and economic, financial and political events that affect the issuer, its particular market or the financial markets in general. Due to these features, CoCos may have substantially greater risk than other securities in times of financial stress. Because of the uncertainty regarding whether a conversion event will occur, it may be difficult to predict when, if at all, a contingent convertible security will be converted to equity, and a fund may suffer losses as a result. If the trigger level is breached, the issuer's decision to write down, write off or convert a contingent convertible security may result in the fund's complete loss on an investment in CoCos with no chance of recovery even if the issuer remains in existence.

Counterparties. The Funds may be exposed to counterparty risk, or the risk that another party with which the Funds have unsettled or open transactions will fail to perform on their commitment. To the extent that unpaid amounts owed to the Funds exceed a predetermined threshold agreed to with the counterparty, as stated in the counterparties' master netting agreements ("Master Netting Agreements"), such counterparty shall advance collateral to the Funds in the form of cash or cash equivalents equal in value to the unpaid amount owed to the Funds. If the unpaid amount owed to the Funds subsequently decreases, the Funds would be required to return all or a portion of the collateral.

Master Netting Agreements may also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Netting Agreements, collateral is routinely transferred if the total net exposure to certain transactions governed under the relevant master netting agreement with a counterparty exceeds a specified threshold.

As of October 31, 2023, Funds with financial assets and liabilities subject to Master Netting Agreements or similar agreements were as follows (amounts in thousands):

<sup>\*</sup> Represents amount of offsetting derivative assets or liabilities that are subject to an enforceable master netting agreement or similar agreement that are not netted against the gross derivative assets or liabilities for presentation on the statements of assets and liabilities.

The financial instruments that are subject to Master Netting Agreements or similar agreements may include right of setoff provisions. Derivative instruments include provisions to setoff positions covered under the agreements with the same counterparties and provisions to setoff positions outside of the agreements with the same counterparties in the event of default by one of the parties. Derivative instruments are shown gross on the statements of assets and liabilities. Derivative instruments also include collateral provisions. Collateral received and pledged are generally settled daily with each counterparty.

Cross Trades. The Funds may engage in cross trades. A cross trade is a purchase or sale transaction between affiliated portfolios executed directly or through an intermediary. Mutual funds and other managed portfolios may be considered affiliated if they have a common investment advisor, so a fund may be considered affiliated with any portfolio for which the fund's sub-advisor acts as an investment advisor. Such transactions are permissible provided that the conditions of Rule 17a-7 under the 1940 Act are satisfied. For the year ended October 31, 2023, none of the Funds had cross trades.

**Deposits with Counterparty.** Cash pledged as collateral is reflected as an asset on the statements of assets and liabilities as deposits with counterparty. There are a variety of security types which require varying levels of pledged collateral. Customer account agreements govern

<sup>†</sup> Collateral pledged or received may be in excess of recognized assets or liabilities, see the schedules of investments.

cleared derivatives transactions such as futures contracts and certain swap agreements. Such transactions require posting of initial margin as determined by each relevant clearing agency which is segregated in an account at a futures commission merchant ("FCM") registered with the Commodity Futures Trading Commission. International Swaps and Derivatives Association ("ISDA") accounts are maintained in a segregated account at the custodian for over-the-counter ("OTC") derivatives. Master Securities Forward Transaction Agreements ("MSFTA") accounts are also maintained in a segregated account at the custodian for collateral related to forward currency contracts and "to-be-announced" ("TBA") securities. Certain of the Funds may pledge cash to a broker for securities sold short.

As of October 31, 2023, deposits with counterparty were as follows (amounts in thousands):

	FCM (Futures and	d	ISDA (OTC	<b>Total Deposits with</b>
	Cleared Swaps)		Derivatives)	Counterparty

Floating Rate Notes Issued in Conjunction with Securities Held. Certain of the funds may enter into transactions in which the funds transfer fixed rate bonds to trusts in exchange for cash and residual interests in the trusts' assets and cash flows, which are in the form of inverse floating rate securities ("Inverse Floaters"). The trusts finance the purchases of the fixed rate bonds by issuing floating rate notes to third parties. The funds enter into shortfall and forbearance agreements with the trusts, which commit the funds to pay the trusts, in certain circumstances, the difference between the liquidation value of the fixed rate bonds held by the trusts and the liquidation value of the floating rate notes held by third parties, as well as any shortfalls in interest cash flows. The residual interests held by the fund ("Inverse Floaters") include the right of the funds (1) to cause the holders of the floating rate notes to tender their notes at par at the next interest rate reset date, and (2) to transfer the fixed rate bond from the trusts to the funds, thereby collapsing the trusts. The funds account for the transfer of bonds to the trusts as secured borrowings, with the securities transferred remaining in the funds' investment assets. The related floating rate notes are reflected as floating rate notes issued in the statements of assets and liabilities. The fund holds the floating rate notes issued in which the carrying value, including accrued interest, approximates fair value for financial statement purposes. As of year end, the floating rate notes issued liabilities are categorized as Level 2 within the disclosure hierarchy. The notes issued by the trusts have interest rates that reset weekly, and the floating rate note holders have the option to tender their notes to the trusts for redemption at par at each reset date.

During the year ended October 31, 2023, the average outstanding balances for the liability and weighted average annual interest rates for the Funds' were as follows (amounts in thousands):

	Average Outstanding	
	Balance	Rate
California Municipal Fund	\$ 25,057	3.48%
Tax-Exempt Bond Fund	17.285	3.60

## 3. Operating Policies (continued)

Foreign Currency Contracts. Certain of the Funds may be subject to foreign currency exchange rate risk in the normal course of pursuing such Funds' investment objectives. The Funds may use foreign currency contracts to gain exposure to, or hedge against changes in the value of foreign currencies. Certain of the Funds enter into forward contracts to purchase and sell foreign currencies at a specified future date at a fixed exchange rate. Forward foreign currency contracts are valued at the forward rate, and are marked-to-market daily. The change in fair value is recorded by the Funds as an unrealized gain or loss. When the contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign currency contracts does not eliminate the fluctuations in underlying prices of the Funds' portfolio securities, but it does establish a rate of exchange that can be achieved in the future. Although forward foreign currency contracts limit the risk of loss due to a decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Funds could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts or if the value of the currency changes unfavorably to the U.S. dollar or other respective currency.

**Futures Contracts.** The Funds are subject to equity price risk, interest rate risk, and foreign currency exchange rate risk in the normal course of pursuing their investment objectives. Certain of the Funds may enter into futures contracts to hedge against changes in, or to gain exposure to, change in the value of equities, interest rates and foreign currencies. Initial margin deposits are made by cash deposits or segregation of specific securities as may be required by the exchange on which the transaction was conducted. Pursuant to the contracts, typically a fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as "variation margin" and are recorded by the fund as a variation margin receivable or payable on financial derivative instruments. For those contracts where daily variation margin payments are not received from or paid to the broker, the cumulative unrealized gains or losses are included in variation margin receivable or payable on financial derivative instruments. Futures contracts are marked to market daily at the closing settlement price or in the absence of such a price, the most recent quoted bid price. If there are no quotations available, the security is valued at the last available closing settlement price. During the period the futures contracts are open, daily changes in the fair value of the contracts are recognized as unrealized gains or losses. These unrealized gains or losses are included as a component of total distributable earnings (accumulated loss) on the statements of assets and liabilities. When the contracts are closed, the fund recognizes a realized gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the fund's cost basis in the contract. There is minimal counterparty credit risk to the Funds because futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees

Long equity futures contracts are used to obtain market exposure for the cash balances that are maintained by certain of the Funds and the notional values of the futures contracts will vary in accordance with changing cash balances. Long and short U.S. Treasury futures contracts are used to obtain interest rate exposure in order to manage duration of Core Plus Bond Fund, Diversified Income Fund, Finisterre Emerging Markets Total Return Bond Fund, Government & High Quality Bond Fund, Inflation Protection Fund, and Short-Term Income Fund. The notional values of the futures contracts will vary in accordance with the changing duration of these funds.

**Illiquid Securities.** Illiquid securities generally cannot be sold or disposed of in the ordinary course of business (within seven calendar days) at approximately the value at which each of the Funds has valued the investments. This may have an adverse effect on each of the Funds' ability to dispose of particular illiquid securities at fair value and may limit each of the Funds' ability to obtain accurate market quotations for purposes of valuing the securities.

**Indemnification.** Under the Fund's by-laws, present and past officers, directors, and employees are indemnified against certain liabilities arising out of the performance of their duties. In addition, in the normal course of business, the Fund may enter into a variety of contracts that may contain representations and warranties which provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund.

**Inflation-Indexed Bonds.** Certain of the Funds may invest in inflation-indexed bonds. Inflation-indexed bonds are fixed-income securities whose principal value is periodically adjusted to the rate of inflation. The interest rate on these bonds is generally fixed at issuance at a rate lower than typical bonds. Over the life of an inflation-indexed bond, however, interest will be paid based on a principal value, which is adjusted for inflation. Any increase or decrease in the principal amount of an inflation-indexed bond will be included as interest income on the statements of operations, even though the Funds would not receive the principal until maturity.

**Liquidity Fees on Redemptions and Redemption Gates.** As a retail money market fund, Money Market Fund has adopted policies and procedures regarding the imposition of liquidity fees on redemptions and/or redemption gates in the event that its level of weekly liquid assets falls below a designated threshold, subject to the actions of the Fund's Board of Directors. The imposition of liquidity fees or redemption gates affects checkwriting and exchanges into Money Market Fund.

## 3. Operating Policies (continued)

Mortgage Dollar Rolls. Certain of the Funds may enter into mortgage-dollar-roll transactions on TBA securities, in which the Funds sell mortgage-backed securities and simultaneously agree to purchase similar securities in the future at a predetermined price. The proceeds of the securities sold in mortgage-dollar-roll transactions are invested in additional securities. The Funds forgo principal and interest paid on the securities and are compensated by interest earned on the proceeds of the initial sale and by a lower price on the securities to be repurchased. The Funds treat mortgage-dollar-roll transactions as purchases and sales; as such, these transactions may increase the Funds' portfolio turnover ratio. Amounts to be received or paid in connection with open mortgage-dollar-rolls are included in investment securities sold and investment securities purchased on the statements of assets and liabilities.

Options Contracts. During the year, certain of the Funds wrote call and put options on futures, swaps, securities, indices and currencies they own or in which they may invest and inflation floors for both hedging and non-hedging purposes. Writing put options tends to increase a fund's exposure to the underlying instrument. Writing call options tends to decrease a fund's exposure to the underlying instrument. When a fund writes a call, a put option, or an inflation floor, an amount equal to the premium received is recorded as a liability and subsequently marked to market to reflect the current value of the option written. An inflation floor can give downside protection to investments in inflation-linked products. These liabilities are reflected as options contracts written on the statements of assets and liabilities. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or closed are added to the proceeds or offset against amounts paid on the underlying future, swap, security, index or currency transaction to determine the realized gain or loss. A fund, as a writer of an option, has no control over whether the underlying future, swap, security, index or currency may be sold (call) or purchased (put) and as a result bears the market risk of an unfavorable change in the price of the future, swap, security, index or currency underlying the written option. There is the risk a fund may not be able to enter into a closing transaction because of an illiquid market. The maximum potential amount of future payments (undiscounted) that a fund as a writer of put options could be required to make is equal to the notional amount multiplied by the exercise price as shown in the schedules of investments. A fund may also purchase put and call options. Purchasing call options tends to increase a fund's exposure to the underlying instrument. Purchasing put options tends to decrease a fund's exposure to the underlying instrument. A fund pays a premium which is included on the fund's statements of assets and liabilities as an investment and subsequently marked to market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying future, swap, security, index or currency transaction to determine the realized gain or loss. Details of options contracts open at year end are included in the Funds' schedules of investments.

Private Investments in Public Equity. The Funds may invest in private investments in public equity ("PIPEs") which are issued by a company in the secondary market as a means of raising capital. In connection with PIPEs, the Funds may enter into unfunded commitments. Commitments may be subject to various contingencies and are recognized when the commitment is legally binding. These contingencies are considered in the valuation of the commitments. The Funds are obligated to fund these commitments when the contingencies are met and therefore, the Funds must have funds sufficient to cover their obligation. Commitments are marked to market daily and the unrealized gain or loss is shown as a separate line item called unrealized gain or loss on unfunded commitments on the statements of assets and liabilities and included in the net change in unrealized appreciation/(depreciation) of investments on the statements of operations, as applicable. As of year end, the commitments are typically categorized as Level 2 within the disclosure hierarchy. As of October 31, 2023, the Funds had no unfunded commitments in connection with PIPEs.

**Rebates.** Subject to best execution, the Funds may direct certain portfolio transactions to brokerage firms that, in turn, have agreed to rebate a portion of the related brokerage commission to the Funds in cash. Commission rebates are included as a component of realized gain from investment transactions in the statements of operations.

Repurchase Agreements. The Funds may invest in repurchase agreements that are fully collateralized, typically by U.S. government or U.S. government agency securities. It is the Fund's policy that the counterparties' custodian takes possession of the underlying collateral securities. The fair value of the collateral is at all times at least equal to the total amount of the repurchase obligation. In the event of default on the obligation to repurchase, the Funds have the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. In the event the seller of a repurchase agreement defaults, the Funds could experience delays in the realization of the collateral.

**Restricted Securities.** Certain of the Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult.

Securities Lending. As footnoted in the schedules of investments, certain of the Funds may lend portfolio securities to approved brokerage firms to earn additional income. The Funds receive collateral, in the form of cash, against the loaned securities. During the period of the loan, the borrower must maintain collateral in an amount not less than 102% of the market value of the domestic and foreign fixed income loaned securities

## 3. Operating Policies (continued)

and 105% of the market value of the foreign equity loaned securities. The market value of the loaned securities is determined at the close of business of the Funds and any additional required collateral is delivered to the Funds on the next business day. The transactions are accounted for as secured borrowings and the remaining contractual maturity is overnight and continuous for all securities. The cash collateral received is usually invested in an SEC-registered money market mutual fund and the Funds could realize a loss on such investments. Further, the Funds could experience a delay in recovering their securities and possible loss of income or value if the borrower fails to return them. Securities lending income, net of related fees, is shown on the statements of operations.

Senior Floating Rate Interests. The Funds may invest in senior floating rate interests (bank loans). Senior floating rate interests typically hold the most senior position in the capital structure of a business entity (the "Borrower"), and are secured by specific collateral and have a claim on the assets and/or stock of the Borrower that is senior to that held by subordinated debtholders and stockholders of the Borrower. Senior floating rate interests are typically structured and administered by a financial institution that acts as the agent of the lenders participating in the senior floating rate interest. Borrowers of senior floating rate interests are typically rated below-investment-grade, which means they are more likely to default than investment-grade loans. A default could lead to non-payment of income which would result in a reduction of income to the fund and there can be no assurance that the liquidation of any collateral would satisfy the Borrower's obligation in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated.

Senior floating rate interests pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank, LIBOR, SOFR, or a similar reference rate.

Senior floating rate interests generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for the Borrower to repay, prepayments of senior floating rate interests may occur. As a result, the actual remaining maturity of senior floating rate interests may be substantially less than stated maturities shown in the schedules of investments.

In connection with the senior floating rate interests, the Funds may also enter into unfunded loan commitments. All or a portion of the loan commitments may be unfunded. The Funds are obligated to fund these loan commitments at the Borrower's discretion. Therefore, the Funds must have funds sufficient to cover their contractual obligation. Unfunded loan commitments are marked to market daily and the unrealized gain or loss is shown as a separate line item called unrealized gain or loss on unfunded commitments on the statements of assets and liabilities and included in the net change in unrealized appreciation/(depreciation) of investments on the statements of operations, as applicable. As of year end, the unfunded loan commitments are categorized as Level 2 within the disclosure hierarchy. As of October 31, 2023, the Funds had unfunded loan commitments as follows (amounts in thousands):

	<b>Unfunded Loan Commitment</b>	Net 1	Unrealized Gain/(Loss)
Diversified Income Fund	\$ 39	\$	_

Short Sales. Certain of the funds may enter into short sales transactions. A short sale is a transaction in which a fund sells a security it does not own as a hedge against some of its long positions and/or in anticipation of a decline in the market price of the security. The fund must borrow the security sold short and deliver it to the broker dealer which made the short sale. A security sold in a short sale transaction and the interest or dividend payable on the security if any, is reflected as a liability on the statements of assets and liabilities. The fund is obligated to pay any interest or dividends received on the borrowed securities. Interest accrued and dividends declared on short positions are recorded as an expense and, if any, appear as dividends and interest on shorts on the statements of operations. A fund is obligated to deliver the security at the market price at the time the short position is closed. Possible losses from short sales may be unlimited.

The fund is required to pledge cash or securities to the broker as collateral for securities sold short. Collateral requirements are calculated daily based on the current market value of the short positions. Cash deposited with the broker for collateral is included in deposits with counterparty on the statements of assets and liabilities and securities segregated as collateral are footnoted in the schedules of investments. The fund may pay broker's fees on the borrowed securities and may also pay a financing charge for the difference in the market value of the short position and cash collateral deposited with the broker. These fees would be included as short sale fees on the statements of operations.

**Swap Agreements.** Certain of the Funds invested in swap agreements during the period. Swap agreements are negotiated agreements between a fund and a counterparty to exchange a series of cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset. A fund may enter into credit default, currency, interest rate, or total return swap agreements to manage its exposure to credit, currency, interest rate, or market risk. In connection with these agreements, securities may be identified as collateral in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

## 3. Operating Policies (continued)

Swap agreements are valued through a pricing service or using procedures established and periodically reviewed by the Fund's Board of Directors. OTC swaps are modeled taking into account the counterparties' creditworthiness and using a series of techniques, including simulation models. Changes in value are recorded as unrealized gain or loss which is included as a component of total distributable earnings (accumulated loss) on the statements of assets and liabilities.

Upon termination of swap agreements, the Funds recognize a realized gain or loss. Net periodic payments to be received or paid are accrued daily and are recorded in the statements of operations as realized gains or losses.

Payments received or made at the beginning of the measurement period are reflected as such on the statements of assets and liabilities and represent payments made or received upon entering into the swap agreement to compensate for differences between the stated terms of the swap agreement and prevailing market conditions (credit spreads, interest rates, and other relevant factors). These upfront payments are amortized daily over the term of the swap agreement as realized gains or losses on the statements of operations.

Notional principal amounts are used to express the extent of involvement in these agreements. Risks may exceed amounts shown on the statements of assets and liabilities. These risks include changes in the returns of the underlying instruments, unfavorable interest rate fluctuation, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of contractual terms in the agreements, and the possible lack of liquidity with respect to the swap agreements.

The Funds and any counterparty are required to maintain an agreement that requires the Funds and that counterparty to monitor the net fair value of all derivative transactions entered into pursuant to the contract between the Funds and such counterparty. If the net fair value of such derivatives transactions between the Funds and that counterparty exceeds a certain threshold (as defined in the agreement), the Funds or the counterparty are required to post cash and/or securities as collateral. Fair values of derivatives transactions presented in the financial statements are not netted with the fair values of other derivatives transactions or with any collateral amounts posted by the Funds or any counterparty.

Credit default swaps involve commitments to pay a fixed rate at a predetermined frequency in exchange for a lump sum payment if a "credit event", as defined in the agreement, affecting a third party occurs. Credit events may include a failure to pay interest, bankruptcy, restructuring, or other event as defined in the agreement. A "buyer" of credit protection agrees to pay a counterparty to assume the credit risk of an issuer upon the occurrence of a credit event. The "seller" of the protection receives periodic payments and agrees to assume the credit risk of an issuer upon the occurrence of a credit event. As the seller of credit protection, a fund would add leverage to its portfolio because, in addition to its total net assets, a fund would be subject to investment exposure on the notional amount of the swap.

If a fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If a fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, a fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations or underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

Credit default swap agreements on credit indices involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising the credit index. A credit index is a basket of credit instruments or exposures designed to be representative of some part of the credit market as a whole. These indices are made up of reference credits that are judged by a poll of dealers to be the most liquid entities in the credit default swap market based on the sector of the index. Components of the indices may include, but are not limited to, investment grade securities, high yield securities, asset backed securities, emerging markets, and/or various credit ratings within each sector. Credit indices are traded using credit default swaps with standardized terms including a fixed spread and standard maturity dates. An index credit default swap references all the names in the index, and if there is a default, the credit event is settled based on that name's weight in the index. The composition of the indices changes periodically, usually every six months, and for most indices, each name has an equal weight in the index. A fund may use credit default swaps on credit indices to hedge a portfolio of credit default swaps or bonds, which is less expensive than it would be to buy many credit default swaps to achieve a similar effect. Credit-default swaps on indices are benchmarks for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality.

Credit default swap agreements on corporate issues or sovereign issues involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default or other credit event. If a credit event occurs and cash settlement is

not elected, a variety of other deliverable obligations may be delivered in lieu of the specific referenced obligation. The ability to deliver other obligations may result in a cheapest-to-deliver option (the buyer of protection's right to choose the deliverable obligation with the lowest value following a credit event). The Funds may use credit default swaps on corporate issues or sovereign issues of an emerging country to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Funds own or have exposure to the referenced obligation).

For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Wider credit spreads and increasing values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The maximum potential amount of future payments (undiscounted) that a fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of October 31, 2023 for which a fund is the seller of protection are disclosed in the footnotes to the schedules of investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by a fund for the same referenced entity or entities.

Currency swap agreements involve the commitment to exchange cash flows on a notional amount based on changes in the relative values of the specified currencies.

Interest rate swaps involve the commitment to exchange fixed or floating rate cash flows based on changes in the value of a specific reference rate.

Certain collateral amounts relate to exchange cleared swaps which are not subject to Master Netting Agreements with counterparties.

**To Be Announced Securities.** The Funds may trade portfolio securities on a TBA or when-issued basis. In a TBA or when-issued transaction, the Funds commit to purchase or sell securities for which all specific information is not known at the time of the trade. Securities purchased on a TBA or when-issued basis are not settled until they are delivered to the Funds, normally 15 to 30 days later. These transactions are subject to market fluctuations and their current value is determined in the same manner as for other portfolio securities.

**Underlying Funds.** The performance and risks of each Principal LifeTime Fund, Principal LifeTime Hybrid Fund, and SAM Portfolio (singly, "a fund of funds" and collectively, "the funds of funds") directly corresponds to the performance and risks of the Underlying Funds in which the fund of funds invests. By investing in many Underlying Funds, the funds of funds have partial exposure to the risks of many different areas of the market. The more a fund of funds allocates to stock funds, the greater the expected risk.

An underlying fund to a fund of funds may experience relatively large redemptions or purchases as the fund of funds periodically reallocates or rebalances its assets. These transactions may accelerate the realization of taxable income if sales of portfolio securities result in gains and could increase transaction costs. In addition, when a fund of funds reallocates or redeems significant assets away from an underlying fund, the loss of assets to the underlying fund could result in increased expense ratios for that fund.

The Manager is the advisor to the Fund, Principal Variable Contracts Funds, Inc., Principal Exchange-Traded Funds, and other asset allocation programs. The Manager is committed to minimizing the potential impact of underlying fund risk to the extent consistent with pursuing the investment objectives of the funds of funds which it manages. Each may face conflicts of interest in fulfilling its responsibilities to all such funds. Shareholder reports for other series of the Fund, Principal Variable Contracts Funds, Inc., and Principal Exchange-Traded Funds can be found at www.PrincipalAM.com.

As of October 31, 2023, series of the Fund, Principal Exchange-Traded Funds and Principal Variable Contracts Funds, Inc. owned the following percentages, in the aggregate, of the outstanding shares of the Funds listed below:

	Total Percentage of Outstanding Shares Owned		Total Percentage of Outstanding Shares Owned
Core Fixed Income Fund	69.07%	LargeCap Value Fund III	74.03%
Diversified International Fund	77.70	MidCap Fund	2.62

LargeCap S&P 500 Index Fund	52.23	SmallCap Value Fund II	25.94

**U.S. Government Agencies or Government-Sponsored Enterprises.** Certain of the Funds may invest in U.S. Government agencies or government-sponsored enterprises. U.S. Government securities are obligations of, and in certain cases, guaranteed by, the U.S. Government or its agencies. The U.S. Government does not guarantee the net asset value of the Funds' shares. Some U.S. Government securities such as treasury bills, notes and bonds, and securities guaranteed by the Government National Mortgage Association ("GNMA") are supported by the full faith and credit of the U.S. Government. Other securities, such as those of the Federal Home Loan Bank, are supported by the right of the issuer to borrow from the U.S. Department of the Treasury. Still other securities, such as those of the Federal National Mortgage Association ("FNMA"), are supported by the discretionary authority of the U.S. Government to purchase the agency's obligations.

Government related guarantors (those not backed by the full faith and credit of the U.S. Government) include the FNMA and the Federal Home Loan Mortgage Corporation ("FHLMC"). The FNMA is a government sponsored corporation, the common stock of which is owned entirely by private stockholders. The FNMA purchases conventional residential mortgages from a list of approved seller/servicers which include state and federally chartered savings and loan associations, mutual savings banks, commercial banks, credit unions, and mortgage bankers. Pass-through securities issued by the FNMA are guaranteed as to the timely payment of principal and interest by the FNMA, but are not backed by the full faith and credit of the U.S. Government. The FHLMC issues participation certificates, which are pass-through securities, each representing an undivided interest in a pool of residential mortgages. The FHLMC guarantees the timely payment of interest and ultimate collection of principal, but participation certificates are not backed by the full faith and credit of the U.S. Government.

#### 4. Fair Valuation

Fair value is defined as the price that the Funds would receive upon selling a security or transferring a liability in a timely transaction to an independent buyer in the principal or most advantageous market of the security at the measurement date. In determining fair value, the Funds may use one or more of the following approaches: market, income and/or cost. A hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available.

Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Funds. Unobservable inputs are inputs that reflect the fund's own estimates about the estimates market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

- Level 1 Quoted prices are available in active markets for identical securities as of the reporting date. Investments which are generally included in this category include listed equities and exchange-traded derivatives.
- Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.). Investments which are generally included in this category include certain foreign equities, corporate bonds, municipal bonds, OTC derivatives, exchange cleared derivatives, senior floating rate interests, repurchase agreements, and U.S. Government and Government Agency Obligations.
- Level 3 Significant unobservable inputs (including the Funds' assumptions in determining the fair value of investments). Investments which are generally included in this category include certain common stocks, convertible preferred stocks, corporate bonds, preferred stocks, or senior floating rate interests.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the market place, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Funds in determining fair value is greatest for instruments categorized in Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market based measure considered from the perspective of a market participant who holds the asset rather than an entity specific measure. Therefore, even when market assumptions are not readily available, the Funds' own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Funds use prices and inputs that are current as of the measurement date, when available.

Investments which are included in the Level 3 category may be valued using quoted prices from brokers and dealers participating in the market for these investments. These investments are classified as Level 3 investments due to the lack of market transparency and market corroboration to support these quoted prices. Valuation models may be used as the pricing source for other investments classified as Level 3. Valuation models rely on one or more significant unobservable inputs such as: yield to maturity, EBITDA multiples, discount rates, available cash, or direct offering price. Significant increases in yield to maturity, EBITDA multiples, available cash, or direct offering price would have resulted in significantly higher fair value measurements. A significant increase in discount rates would have resulted in a significantly lower fair value measurement. Benchmark pricing procedures set the base price of a security based on current market data. The base price may be a broker-dealer quote, transaction price, or internal value based on relevant market data.

The fair values of these securities are dependent on economic, political, and other considerations. The values of such securities may be affected by significant changes in the economic conditions, changes in government policies, and other factors (e.g., natural disasters, pandemics, accidents, conflicts, etc.).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those instruments. For example, short-term securities held in Government Money Market Fund and Money Market Fund are valued using amortized cost, as permitted under Rule 2a-7 of the 1940 Act. Generally, amortized cost approximates the current fair value of these securities, but because the value is not obtained from a quoted price in an active market, such securities are reflected as Level 2.

The following is a summary of the inputs used as of October 31, 2023 in valuing the Funds' securities carried at fair value (amounts in thousands):

<sup>\*</sup>For additional detail regarding sector and/or sub-industry classifications, please see the schedules of investments.

Certain detailed information is provided for those Funds with significant investments in Level 3 securities. Significant unobservable inputs used in the fair value measurements categorized within Level 3 of the fair value hierarchy is as follows (amounts in thousands):

					I	mpact to valuation
		Fair Value as of			Input Valuations	if input had
Fund	Asset Type	October 31, 2023	Valuation Technique	<b>Unobservable Input</b>	(weighted average)*	increased
Diversified 1	Income Fund					
	Bonds	\$ 80,444	Yield Analysis	Yield to Maturity	13.4% – 15.4% (14.8)%	Increase
		_	Litigation Settlement Proceeds	Expected Recovery**	\$0.01	Decrease
	Common Stocks	39,343	Enterprise Valuation Model	EBITDA Multiples	3.6 - 7.0x(4.7x)	Increase
			Discounted Cash Flow	Discount Rate	14.9% – 17.8% (15.9)%	Decrease
		2,512	Liquidation Analysis	Discount Rate***	20.0%	Decrease
		5	Market Quotations	Broker Quote	\$ 0.10	Increase
	Senior Floating Rate Interests	4,510	Precedent Transaction Analysis	Direct Offering Price	\$ 100.00	Increase
	Tota	1 \$ 126,814				

<sup>\*</sup>Unobservable inputs were weighted by the relative fair value of the instruments

<sup>\*\*</sup>Exchange cleared swaps and futures are presented at the unrealized appreciation/(depreciation) of the instrument.

<sup>\*\*</sup>During the year, the valuation technique for High Ridge Brands - Escrow changed from Liquidation Analysis driven by a Discount Rate to the Expected Recovery of the escrow shares.

<sup>\*\*\*</sup>During the year, the valuation technique for Artic Canadian Diamond Co Ltd changed from Enterprise Valuation Model driven by EBITDA Multiples to Liquidation Analysis driven by a Discount Rate.

The changes in investments measured at fair value for which Level 3 inputs have been used to determine fair value are as follows (amounts in thousands):

			Accrued Discounts/						Net Change in Unrealized
	** *		Premiums					** *	Appreciation/
	Value as of October		and Change in Unrealized		Proceeds	Transfers	Transfers Out of	Value as of October 31.	(Depreciation) on Investments held at
Fund	31, 2022	(Loss)	Gain/ (Loss)	Purchases		into Level 3*	Level 3**	2023	October 31, 2023
Diversified Income Fund									
Bonds	\$ 97,585	\$ —	\$ (587)	\$ 1,751	\$ (18,305)	\$ —	\$ —	\$ 80,444	\$ (376)
Common Stock	49,418	40	682	_	(195)	_	(8,085)	41,860	533
Senior Floating Rate Interests	6,885	_	(9)	5,193	(7,559)	_	· -	4,510	(9)
Total	\$ 153,888	\$ 40	\$ 86	6,944	\$ (26,059)	\$ —	\$ (8,085)	\$ 126,814	\$ 148

<sup>\*</sup>Securities are transferred into Level 3 for a variety of reasons including, but not limited to:

- 1. Securities where trading has been halted
- 2. Securities that have certain restrictions on trading
- 3. Instances in which a security is not priced by a pricing service

- 1. Securities where trading resumes
- 2. Securities where trading restrictions have expired
- 3. Instances in which a price becomes available from a pricing service

At the end of the year, there were no other Funds which had a significant Level 3 balance. During the year, there were no significant purchases, sales, or transfers into or out of Level 3, except as noted above.

# 5. Management Agreement and Transactions with Affiliates

Management Services. The Funds have agreed to pay management and investment advisory fees to the Manager computed at an annual percentage rate of each of the Funds' average daily net assets. A portion of the management fee is paid by the Manager to the sub-advisor of each of the Funds, some of which are affiliates of the Manager. The annual rate paid by the SAM Portfolios is based upon the aggregate average daily net assets ("aggregate net assets") of the SAM Portfolios. The management and investment advisory fees schedule for the SAM Portfolios is .35% of aggregate net assets up to \$3 billion, .30% of the next \$4 billion of aggregate net assets, .25% of the next \$4 billion of aggregate net assets, .20% of the next \$4 billion of aggregate net assets, and .18% of aggregate net assets over \$15 billion. The Principal LifeTime Funds and Principal LifeTime Hybrid Funds do not pay management and investment advisory fees. The annual rates used in this calculation for each of the other Funds are as follows:

	Net Assets of Fund				
	First \$500 million	Next \$500 million	Next \$500 million	Over \$1.5 billion	
California Municipal Fund	.40%	.38%	.36%	.35%

In addition to the management fee, R-1, R-3, R-4, and R-5 classes of shares of the Funds pay the Manager a service fee and an administrative service fee computed at an annual percentage rate of each class's average daily net assets. The annual rates for the service fee are .25%, .25%, and .25% and the annual rates for the administrative service fee are .28%, .07%, .03%, and .01% for R-1, R-3, R-4, and R-5, respectively. Class A, Class C, and Institutional shares of the Funds pay Principal Shareholder Services, Inc. (the "Transfer Agent") (wholly owned by the Manager) for transfer agent services. Class J shares pay the Transfer Agent a fee for the services provided in an amount that includes a profit.

The Manager has contractually agreed to limit the expenses (excluding interest expense, expenses related to fund investments, acquired fund fees and expenses, and tax reclaim recovery expenses and other extraordinary expenses) for certain classes of shares of certain of the Funds. The reductions and reimbursements are in amounts that maintain total operating expenses at or below certain limits. The limits are expressed as a percentage of average daily net assets attributable to each class of shares on an annualized basis during the reporting period. The expenses borne by the Manager are subject to reimbursement by the Funds through the fiscal year end, provided no reimbursement will be made if it would result in the Funds exceeding the total operating expense limits. Any amounts outstanding at the end of the year are shown as an expense reimbursement from Manager or expense reimbursement to Manager on the statements of assets and liabilities. The operating expense limits are as follows:

Short-Term Income Fund	N/A	N/A	.79	N/A	February 28, 2023

<sup>^</sup> From March 1, 2023 (date operations commenced) to October 31, 2023.

In addition, the Manager has contractually agreed to limit R-6 expenses other than management and investment advisory fees and distribution fees and, if necessary, pay expenses normally payable by the Funds, excluding interest expense, expenses related to fund investments, acquired fund fees and expenses, and tax reclaim recovery expenses and other extraordinary expenses. The limits are expressed as a percentage of average daily net assets attributable to R-6 shares on an annualized basis during the reporting period. The limits are as follows:

Period from	November 1	2022	through	October	31.	2023

	R-6	Expiration
Diversified Income Fund	.02%	February 29, 2024
Diversified International Fund	.04	February 28, 2023
Global Emerging Markets Fund	.04	February 29, 2024
Government Money Market Fund	.00*	February 29, 2024
International Fund I	.04	February 29, 2024
MidCap Fund	.02	February 28, 2023
Principal LifeTime Hybrid 2015 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2020 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2025 Fund	.02	February 29, 2024

<sup>\*\*</sup> Prior to December 12, 2022, the contractual expense limit was .15%.

<sup>\*\*\*</sup> Contractual expense limit expired February 28, 2023.

<sup>^</sup> From March 1, 2023 (date operations commenced) to October 31, 2023.

<sup>^^</sup> Class C shares discontinued operations and converted to Class A shares on May 19, 2023.

Period from November 1, 2022 through October 31, 20	
	3

	R-6	Expiration
Principal LifeTime Hybrid 2030 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2035 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2040 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2045 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2050 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2055 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2060 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2065 Fund	.02	February 29, 2024
Principal LifeTime Hybrid 2070 Fund	.02^	February 28, 2025
Principal LifeTime Hybrid Income Fund	.02	February 29, 2024
SmallCap Fund	.02	February 29, 2024
SmallCap Growth Fund I	.01	February 29, 2024
SmallCap Value Fund II	.02	February 28, 2023

<sup>\*</sup> From December 12, 2022 (date operations commenced) to October 31, 2023.

In addition, the Manager has contractually agreed to waive certain of the Funds' management and investment advisory fees. The expense waiver will reduce the Funds' management and investment advisory fees. The waivers are expressed as a percentage of average daily net assets on an annualized basis during the reporting period. The waivers are as follows:

		Expiration
Core Plus Bond Fund	.060%	February 28, 2023
Diversified Income Fund	.040	February 28, 2023
High Income Fund	.015	February 29, 2024
LargeCap Growth Fund I	.016	February 29, 2024
LargeCap Value Fund III	.065	February 29, 2024
MidCap Growth Fund III	.020	February 29, 2024
MidCap Value Fund I	.020	February 29, 2024
Overseas Fund	.020^	February 29, 2024
SmallCap Growth Fund I	.020	February 29, 2024
SmallCap Value Fund II	.020	February 29, 2024

<sup>^</sup>Prior to January 1, 2023, the contractual expense reduction was 0.035%

The Manager has also voluntarily agreed to limit Government Money Market Fund's and Money Market Fund's expenses for all classes of shares to the extent necessary to maintain a 0% yield. The voluntary expense limit may be terminated at any time.

With respect to Government Money Market Fund, the Manager has contractually agreed to reduce the fund's management fees through February 29, 2024. The fee waiver will reduce the fund's management fees in an amount equal to all acquired fund fees and expenses.

**Distribution Fees.** The Class A, Class C, Class J, R-1, R-3, and R-4 shares of the Funds bear distribution fees, except for Class A shares of Money Market Fund, which are not subject to distribution fees. The fee is computed at an annual rate of the average daily net assets attributable to each class of each of the Funds. Distribution fees are paid to Principal Funds Distributor, Inc. ("the Distributor") (an affiliate of the Manager), the principal distributor of the Funds. A portion of the distribution fees may be paid to other selling dealers for providing certain services. The annual rates are .25%, 1.00%, .15%, .35%, .25%, and .10% for Class A, Class C, Class J, R-1, R-3, and R-4 classes of shares, respectively, except the following classes of shares:

Government & High Quality Bond Fund	Class A	.15%
LargeCap S&P 500 Index Fund	Class A	.15
Short-Term Income Fund	Class A	.15

The Distributor has voluntarily agreed to limit the distribution fees (expressed as a percent of average net assets on an annualized basis) attributable to Class J shares (with the exception of Money Market Fund). The limit will maintain the level of distribution fees not to exceed .13% for Class J shares. The voluntary expense limit may be terminated at any time.

The Distributor has contractually agreed to limit Money Market Fund's distribution fees attributable to Class J shares. This waiver will reduce the distribution fees by .15%. The expense limit expires February 29, 2024.

Amounts owed to the Funds under the terms of the expense limitation agreements are reflected in the statements of assets and liabilities as expense reimbursement from Distributor and are settled periodically.

<sup>^</sup> From March 1, 2023 (date operations commenced) to October 31, 2023.

Chief Compliance Officer Expenses. The Funds pay certain expenses associated with the Chief Compliance Officer ("CCO"). This expense is allocated among the registered investment companies managed by the Manager based on the relative net assets of each fund and is shown on the statements of operations.

Sales Charges. The Distributor receives proceeds of any contingent deferred sales charge ("CDSC") on certain Class A, Class C, and Class J share redemptions. The charge for Class A shares is 1.00% (.25% for LargeCap S&P 500 Index Fund) of the lesser of current market value or the cost of shares redeemed within 12 months of purchase. The charge for Class C shares is 1.00% of the lesser of current market value or the cost of shares redeemed within 12 months of purchase. The charge for Class J shares is 1.00% of the lesser of current market value or the cost of shares redeemed within 18 months of purchase. The Distributor also retains sales charges on sales of Class A shares based on declining rates which begin at 1.50% for LargeCap S&P 500 Index Fund, 2.25% for Core Fixed Income Fund, Government & High Quality Bond Fund, and Short-Term Income Fund, 3.75% for California Municipal Fund, Core Plus Bond Fund, Diversified Income Fund, Finisterre Emerging Markets Total Return Bond Fund, High Yield Fund, Principal LifeTime 2020 Fund, Principal LifeTime 2030 Fund, Principal LifeTime Strategic Income Fund, SAM Flexible Income Portfolio, and Tax-Exempt Bond Fund, and 5.50% for all other Funds (except Money Market Fund which does not carry a sales charge). The aggregate amounts of these charges retained by the Distributor for the year ended October 31, 2023, were as follows (amounts in thousands):

Tax-Exempt Bond Fund	\$ 111 \$	58 \$	18,510 \$	18,636 \$	— \$	— \$	— \$		\$ - \$	

<sup>\*</sup>The Funds designate these distributions as exempt interest per Internal Revenue Code ("IRC") Sec. 852(b)(5).

Certain Funds may also utilize earnings and profits distributed to shareholders on redemptions of shares as part of the dividends paid deduction.

For U.S. federal income tax purposes, short-term capital gain distributions are considered ordinary income distributions.

**Distributable Earnings.** As of October 31, 2023, the components of total distributable earnings (accumulated loss) on a federal tax basis were as follows (amounts in thousands):

							Total
	Undistributed	Undistributed	Undistributed		Net Unrealized	Other	Accumulated
	Ordinary	Tax-Exempt	Long-Term	Accumulated	Appreciation	Temporary	Earnings
	Income	Income	Capital Gains	Losses	(Depreciation)	Differences*	(Deficit)

<sup>^</sup> The Funds designate these distributions as long-term capital gain dividends per IRC Sec. 852(b)(3)(C) in the 20-percent group (which may be taxed at a 20-percent rate, a 15-percent rate or a 0-percent rate, depending on the shareholder's taxable income).

<sup>\*\*</sup>Unrecaptured Section 1250 gains are gains from the sale of depreciable property that are subject to a maximum tax rate of 25%.

Tax-Exempt Bond Fund	29,882	32,761	62,643

<sup>\*</sup> In accordance with IRC Sections 381-384, a portion of the losses have been subject to a \$644,000 annual limitation.

All of these capital losses were generated in taxable years beginning after the enactment date of the Regulated Investment Company Modernization Act of 2010 on December 22, 2010, and will be carried forward with no expiration and with the character of the loss retained.

For the year ended October 31, 2023, the Funds utilized capital loss carryforwards as follows (amounts in thousands):

	Shor	t-Term	Long-Term
	Ut	ilized	Utilized
Core Fixed Income Fund	\$	37 5	S —
Diversified International Fund		_	53
MidCap Growth Fund		3,422	_

	Short-Term	Long-Term
	Utilized	Utilized
Principal Capital Appreciation Fund	3,511	_
SmallCap Fund	423	_

**Late-Year Losses.** A regulated investment company may elect to treat any portion of its qualified late-year loss as arising on the first day of the next taxable year. Qualified late-year losses are certain ordinary losses which occur during the portion of the fund's taxable year subsequent to December 31. As of October 31, 2023, the Funds intend to defer late-year ordinary losses as follows (amounts in thousands):.

	Late Year Ordinary Loss
MidCap Fund	\$ 17,415
MidCap Growth Fund	585
MidCap Growth Fund III	1,230
SmallCap Growth Fund I	2,609

Reclassification of Capital Accounts. The Funds may record reclassifications in their capital accounts. These reclassifications have no impact on the total net assets of the Funds. The reclassifications are a result of permanent differences between U.S. GAAP and tax accounting. Adjustments are made to reflect the impact these items have on current and future distributions to shareholders. Therefore, the source of the Funds' distributions may be shown in the accompanying statements of changes in net assets as from net investment income and net realized gain on investments or from tax return of capital depending on the type of book and tax differences that exist. For the year ended October 31, 2023, the Funds recorded reclassifications as follows (amounts in thousands):

TOTAL NET ASSETS - 100.00%			\$	9,656,645

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$6,807 or 0.07% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.
- (e) Restricted Security. Please see Restricted Securities sub-schedule for additional information.

- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$820,330 or 8.49% of net assets.
- (g) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$6,474 or 0.07% of net assets.
- (h) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (i) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (j) Security purchased on a when-issued basis.
- (k) Non-income producing security

OBLIGATIONS			\$	228,216
Total Investments			\$	586,761
Other Assets and Liabilities - (6.61)%				(36,370)
TOTAL NET ASSETS - 100.00%			\$	550,391

- a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$2,980 or 0.54% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.
- f) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (g) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$70,089 or 12.73% of net assets.
- (h) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$2,864 or 0.52% of net assets.
- (i) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (j) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (k) Security is an Interest Only Strip.
- (l) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (m) Security purchased on a when-issued basis.
- (n) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (o) This Senior Floating Rate Note will settle after October 31, 2023, at which time the interest rate will be determined.
- (p) Security was purchased in a "to-be-announced" ("TBA") transaction.
- (q) Security or a portion of the security was pledged to cover margin requirements for swap and/or swaption contracts. At the end of the period, the value of these securities totaled \$2,827 or 0.51% of net assets.
- (r) Security or a portion of the security was pledged to cover margin requirements for futures contracts. At the end of the period, the value of these securities totaled \$1,925 or 0.35% of net assets.
- (s) Rate shown is the discount rate of the original purchase.

Total					9	(138)\$	227\$		89

Amounts in thousands.

(a) Implied credit spreads, represented in absolute terms, used in determining the market value of credit default swap agreements on corporate issues or sovereign issues as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

2.50%, 01/01/2052				- -	

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$34,642 or 1.31% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (f) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.
- (g) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (h) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$33,456 or 1.27% of net assets.
- (i) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$688,833 or 26.11% of net assets.
- (j) Security purchased on a when-issued basis.
- (k) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (l) Security is a contingent convertible security, ("CoCo"). CoCo's are hybrid debt securities that may convert to equity or have their principal written down upon occurrence of certain "triggers". At the end of the period, the value of these securities totaled \$47,615 or 1.81% of net assets.
- (m) Security is an Interest Only Strip.

- (n) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (o) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
- (p) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (q) This Senior Floating Rate Note will settle after October 31, 2023, at which time the interest rate will be determined.
- (r) Security was purchased in a "to-be-announced" ("TBA") transaction.
- (s) Rate shown is the discount rate of the original purchase.

- (a) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (b) 1-day yield shown is as of period end.
- (c) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (d) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (e) Security is a contingent convertible security, ("CoCo"). CoCo's are hybrid debt securities that may convert to equity or have their principal written down upon occurrence of certain "triggers". At the end of the period, the value of these securities totaled \$11,066 or 2.47% of net assets.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$73,594 or 16.44% of net assets.
- (g) Non-income producing security

(h) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.

(a) Implied credit spreads, represented in absolute terms, used in determining the market value of credit default swap agreements on corporate issues or sovereign issues as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$208 or 0.10% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$16,258 or 7.65% of net assets.
- (e) Non-income producing security
  - Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$188 or 0.09% of net assets.

TOTAL NET ASSETS - 100.00%	:	\$ 622,179

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$0 or 0.00% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$21,708 or 3.49% of net assets.
- (e) Security is an Interest Only Strip.
- (f) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (g) Non-income producing security
- (h) Security was purchased in a "to-be-announced" ("TBA") transaction.
- i) Rate shown is the discount rate of the original purchase.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$126,811 or 4.01% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.

- (f) Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (g) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$2,316,755 or 73.33% of net assets.
- (h) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$120,603 or 3.82% of net assets.
- (i) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (j) Payment in kind; the issuer has the option of paying additional securities in lieu of cash.
   (k) Rate shown is as of period end. The rate may be a variable or floating rate or
- a fixed rate which may convert to a variable or floating rate in the future.

  (l) Perpetual security. Perpetual securities pay an indefinite stream of interest, but they may be called by the issuer at an earlier date. Date shown, if any, reflects the next call date or final legal maturity date. Rate shown is as of period end.
- (m) Rate information disclosed is based on an average weighted rate of the underlying tranches as of period end.
- (n) Rate shown is the discount rate of the original purchase.

- (a) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (b) 1-day yield shown is as of period end.
- (c) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.
- (d) Security is an Interest Only Strip.

- (e) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (f) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$23,067 or 1.57% of net assets.
- (g) Security was purchased in a "to-be-announced" ("TBA") transaction.
- (h) Security or a portion of the security was pledged to cover margin requirements for swap and/or swaption contracts. At the end of the period, the value of these securities totaled \$629 or 0.04% of net assets.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$2,871 or 1.05% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$7,463 or 2.73% of net assets.
- (f) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$2,790 or 1.02% of net assets.
- g) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$2,016 or 0.02% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.
- Restricted Security. Please see Restricted Securities sub-schedule for additional information.
- (g) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$1,963 or 0.02% of net assets.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$1,584 or 0.05% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- e) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$1,550 or 0.05% of net assets.
- (f) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.

			\$	45,000
TOTAL REPURCHASE AGREEMENTS			\$	45,000
Total Investments			\$	997,297
Other Assets and Liabilities - (0.10)%				(965)
TOTAL NET ASSETS - 100.00%			\$	996,332

- (a) 1-day yield shown is as of period end.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$734,677 or 73.74% of net assets.
- (c) Credit support indicates investments that benefit from credit enhancement or liquidity support provided by a third party bank, institution, or government agency.
- (d) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (e) Security issued by foreign bank and denominated in USD.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$249 or 0.01% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- (e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$24,347 or 1.14% of net assets.
- f) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$218 or 0.01% of net assets.

#### Schedule of Investments Short-Term Income Fund October 31, 2023

U.S. GOVERNMENT & GOVERNMENT AGENCY OBLIGATIONS (continued)		rincipal unt (000's)	Va	lue (000's)
U.S. Treasury (continued)				
2.38%, 05/15/2027	\$	27,950	\$	25,683
			\$	160,054
TOTAL U.S. GOVERNMENT & GOVERNMENT	ENT AGEN	CY		
OBLIGATIONS			\$	160,184
<b>Total Investments</b>			\$	2,846,233
Other Assets and Liabilities - 0.29%				8,418
TOTAL NET ASSETS - 100.00%			\$	2,854,651

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$3,338 or 0.12% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$1,407,419 or 49.30% of net assets.
- (e) Rate shown is as of period end. The rate may be a variable or floating rate or a fixed rate which may convert to a variable or floating rate in the future.

- (f) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$3,239 or 0.11% of net assets.
- (g) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (h) Security is an Interest Only Strip.

- (a) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$24,415 or 1.21% of net assets.
- (b) 1-day yield shown is as of period end.
- (c) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$24,507 or 1.21% of net assets.
- (d) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (e) Non-income producing security
- (f) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.

- (a) 1-day yield shown is as of period end.
- (b) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$4,107 or 0.39% of net assets.
- (c) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (d) Non-income producing security
- e) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$3,935 or 0.38% of net assets.

- (a) Security or a portion of the security was on loan. At the end of the period, the value of these securities totaled \$15,422 or 1.32% of net assets.
- (b) 1-day yield shown is as of period end.
- (c) Security or a portion of the security was received as collateral for securities lending. At the end of the period, the value of these securities totaled \$15,876 or 1.36% of net assets.
- (d) Affiliated Security. Security is either an affiliate (and registered under the Investment Company Act of 1940, as amended, (the "1940 Act")) or an affiliate as defined by the 1940 Act (controls 5.00% or more of the outstanding voting shares of the security). Please see Affiliated Securities sub-schedule for transactional information.
- (e) Non-income producing security
- (f) The value of these investments was determined using significant unobservable inputs, in good faith by the Manager, under procedures established and periodically reviewed by the Board of Directors.

- (a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At the end of the period, the value of these securities totaled \$68,490 or 12.58% of net assets.
- (b) Certain variable rate securities are not based on a published reference rate and spread but are determined by the issuer or agent and are based on current market conditions. These securities do not indicate a reference rate and spread in their description. Rate shown is the rate in effect as of period end.
- (c) Security or portion of underlying security related to Inverse Floaters entered into by the fund.
- (d) Credit support indicates investments that benefit from credit enhancement or liquidity support provided by a third party bank, institution, or government agency.
- (e) Non-income producing security
- (f) Security purchased on a when-issued basis.
- (g) Floating rate securities. The interest rate(s) shown reflect the rates in effect at October 31, 2023.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Excludes interest expense and fees paid through inverse floater agreements. See "Operating Policies" in notes to financial statements.

<sup>(</sup>d) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Reflects Manager's contractual expense limit.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>e) Excludes dividends and interest expense on short sales and short sale fees and reverse repurchase agreement expense. See "Operating Policies" in notes to financial statements.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Includes 0.01% of expenses associated with the reclaim of foreign taxes paid. The expense is not subject to the Manager's contractual expense limit.

<sup>(</sup>e) During the year ended October 31, 2020, the fund experienced a significant one time gain of approximately \$0.11/share as a result of a settlement in a litigation proceeding. If such gain had not been recognized, the total return amounts expressed herein would have been lower.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>g) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>h) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Includes 0.13% of expenses associated with the reclaim of foreign taxes paid. The expense is not subject to the Manager's contractual expense limit.

<sup>(</sup>e) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

17.12	10,940	1.47 (d)	_	(0.64)	28.1

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) During the fiscal year ending October 31, 2023, the Fund experienced a one-time gain of approximately \$0.03/share as a result of a reimbursement by a service provider. If such gain had not been recognized, the total return amounts expressed herein would have been lower.

<sup>(</sup>d) Reflects Manager's contractual expense limit.

<sup>(</sup>e) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>f) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>g) Excludes expense reimbursement from Manager and/or Distributor.

 	***************************************	7.47 (-)		

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) During the fiscal year ending October 31, 2023, the Fund experienced a one-time gain of approximately \$0.03/share as a result of a reimbursement by a service provider. If such gain had not been recognized, the total return amounts expressed herein would have been lower.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>f) Reflects Manager's contractual expense limit.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>d) Reflects Manager's contractual expense limit.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

 $<sup>\ (</sup>e)\ Excludes\ expense\ reimbursement\ from\ Manager\ and/or\ Distributor.$ 

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>f) Period from March 1, 2019, date operations commenced, through October 31, 2019.

<sup>(</sup>g) Total return amounts have not been annualized.

<sup>(</sup>h) Computed on an annualized basis.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>f) During the fiscal year ending October 31, 2019, the Class experienced a one-time gain of net \$0.02/share as a result of a loss related to a large redemption and a subsequent reimbursement by the Advisor. If such gain had not been recognized, the total return amounts expressed herein would have been lower.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>f) Period from March 1, 2019, date operations commenced, through October 31, 2019.

<sup>(</sup>g) Total return amounts have not been annualized.

<sup>(</sup>h) Computed on an annualized basis.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>d) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>e) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>f) Reflects Manager's contractual expense limit.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Reflects Manager's contractual expense limit.

<sup>(</sup>c) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

	Net Asset Value, Beginning of Period	Net Investment Income (Loss)(a)	Net Realized and Unrealized Gain (Loss) on Investments	Total From Investment Operations	Distributions from Realized Gains	Total Dividends and Distributions	Net Asset Value, End of Period

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>d) Excludes expense reimbursement from Manager and/or Distributor.

<sup>(</sup>e) Reflects Manager's contractual expense limit.

<sup>(</sup>f) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>a) Calculated based on average shares outstanding during the period.

<sup>(</sup>b) Total return is calculated without the front-end sales charge or contingent deferred sales charge, if applicable.

<sup>(</sup>c) Total return is calculated using the traded net asset value which may differ from the reported net asset value. The traded net asset value is the net asset value which a shareholder would have paid or received from a subscription or redemption.

<sup>(</sup>d) Reflects Manager's contractual expense limit.

<sup>(</sup>e) Reflects Manager's contractual expense limit and/or Distributor's voluntary distribution fee limit.

<sup>(</sup>f) Excludes expense reimbursement from Manager and/or Distributor.

#### **Basis for Opinion**

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of the Fund's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2023, by correspondence with the custodian, agent banks, brokers and transfer agents; when replies were not received from brokers, transfer agents or agent banks, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernet + Young LLP

We have served as the auditor of one or more Principal investment companies since 1969.

Minneapolis, Minnesota December 21, 2023

As a shareholder of Principal Funds, Inc., you incur two types of costs: (1) transaction costs (for certain share classes), including contingent deferred sales charges; and (2) ongoing costs, including management fees; distribution fees (for certain share classes); and other fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in Principal Funds, Inc. and to compare these costs with the ongoing costs of investing in other mutual funds. In addition to the expenses the Funds bear directly, each of the Funds may indirectly bear its pro rata share of the expenses incurred by the investment companies in which the fund invests. These expenses are not included in the fund's annualized expense ratio used to calculate the expenses paid in this example. If they were, the expenses paid would be higher.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (May 1, 2023 to October 31, 2023), unless otherwise noted.

#### **Actual Expenses**

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. An annual fee of may apply to IRA or 403(b) accounts within Class J shares. R-1, R-3, R-4, R-5 and R-6 classes of shares may be purchased only through retirement plans. Such plans may impose fees in addition to those charged by the Fund. These fees are not included in the table below. If they were, the estimate of expenses you paid during the period would be higher, and your ending account value lower, by this amount.

#### **Hypothetical Example for Comparison Purposes**

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on each fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in Principal Funds, Inc. and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges on purchase payments, contingent deferred sales charges, redemption fees or exchange fees. Therefore, the second section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

				i			

<sup>(</sup>a) Expenses are equal to a fund's annualized expense ratio multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

#### **Notification of Source of Distributions**

Pursuant to Rule 19a-1 of the Investment Company Act of 1940

As noted in the table provided below, certain of the Principal Funds made distributions for the months of June 2023, July 2023, August 2023, September 2023, October 2023 and November 2023 for which a portion is estimated to be in excess of the Fund's current and accumulated net income. As of these month ends, the estimated sources of these distributions were as follows:

June 2023								
Fund	Net Income	Realized Gain	Capital Sources					
Core Fixed Income Fund	0.00%	0.00%	100.00%					
Diversified Income Fund	0.00	0.00	100.00

The ultimate composition of these distributions may vary from the estimates provided above due to a variety of factors including future income and expenses, and realized gains and losses from the purchase and sale of securities.

Please note that this information is being provided to satisfy certain notice requirements under the Investment Company Act of 1940. Tax reporting information for shareholders of the Funds will not be available until the end of the Funds' fiscal year.

#### As a result, shareholders should not use the information provided in this notice for tax reporting purposes.

Notices are posted monthly on our website at <u>principal.com/individuals/dividends-capital-gains-distributions</u>. You may also request a copy of such notices, free of charge, by telephoning 800-222-5852.

This material is not authorized for distribution unless preceded or accompanied by a current prospectus that includes more information regarding the risk factors, expenses, policies, and objectives of the investment. Contact your financial professional or call **800-222-5852** to obtain another copy of the prospectus. Read the prospectus carefully before investing.

A mutual fund's share price and investment return will vary with market conditions, and the principal value of an investment when you sell your shares may be more or less than the original cost.

Principal Funds are distributed by Principal Funds Distributor, Inc.

#### FUND BOARD OF DIRECTORS AND OFFICERS

The Board of Directors (the "Board") has overall responsibility for overseeing the Fund's operations in accordance with the Investment Act of 1940, as amended (the "1940 Act"), other applicable laws, and the Fund's charter. Each member of the Board ("Board Member") serves on the Boards of the following investment companies: Principal Funds, Inc., Principal Variable Contracts Funds, Inc., Principal Exchange-Traded Funds, and Principal Real Asset Fund which are collectively referred to as the "Fund Complex". Board Members that are affiliated persons of any investment advisor, the principal distributor, or the principal underwriter of the Fund Complex are considered "interested persons" of the Fund (as defined in the 1940 Act) and are referred to as "Interested Board Members". Board Members who are not Interested Board Members are referred to as "Independent Board Members".

Each Board Member generally serves until the next annual meeting of shareholders or until such Board Member's earlier death, resignation, or removal. Independent Board Members have a 72-year age limit and, for Independent Board Members elected on or after September 14, 2021, a 72-year age limit or a 15-year term limit, whichever occurs first. The Board may waive the age or term limits in the Board's discretion. The Board elects officers to supervise the day-to-day operations of the Fund Complex. Officers serve at the pleasure of the Board, and each officer has the same position with each investment company in the Fund Complex.

#### INDEPENDENT BOARD MEMBERS

\* The reference to Principal Financial Group includes positions held by the Interested Board Member / Fund Complex Officer, including as an officer, employee, and/or director, with affiliates or subsidiaries of Principal Financial Group. The titles set forth here are each Interested Board Member's / Fund Complex Officer's title with Principal Workforce, LLC.

The 15(c) Committee's primary purpose is to assist the Board in performing the annual review of the Fund's advisory and sub-advisory agreements pursuant to Section 15(c) of the 1940 Act. The Committee is responsible for requesting and reviewing related materials.

The Audit Committee's primary purpose is to assist the Board by serving as an independent and objective party to monitor the Fund Complex's accounting policies, financial reporting and internal control system, as well as the work of the independent registered public accountants. The Audit Committee assists Board oversight of 1) the integrity of the Fund Complex's financial statements; 2) the Fund Complex's compliance with certain legal and regulatory requirements; 3) the independent registered public accountants' qualifications and independence; and 4) the performance of the Fund Complex's independent registered public accountants. The Audit Committee also provides an open avenue of communication among the independent registered public accountants, the Manager's internal auditors, Fund Complex management, and the Board.

The Executive Committee's primary purpose is to exercise certain powers of the Board when the Board is not in session. When the Board is not in session, the Committee may exercise all powers of the Board in the management of the Fund Complex's business except the power to 1) issue stock, except as permitted by law; 2) recommend to the shareholders any action that requires shareholder approval; 3) amend the bylaws; or 4) approve any merger or share exchange that does not require shareholder approval.

The Nominating and Governance Committee's primary purpose is to oversee the structure and efficiency of the Board and the committees. The Committee is responsible for evaluating Board membership and functions, committee membership and functions, insurance coverage, and legal matters. The Committee's nominating functions include selecting and nominating Independent Board Member candidates for election to the Board. Generally, the Committee requests nominee suggestions from Board Members and management. In addition, the Committee considers candidates recommended by shareholders of the Fund Complex. Recommendations should be submitted in writing to the Principal Funds Complex Secretary, in care of the Principal Funds Complex, 711 High Street, Des Moines, IA 50392. Such recommendations must include all information specified in the Committee's charter and must conform with the procedures set forth in Appendix A thereto, which can be found at https://secure02.principal.com/publicvsupply/GetFile?fm=MM13013&ty=VOP&EXT=.VOP. Examples of such information include the nominee's biographical information; relevant educational and professional background of the nominee; the number of shares of each Fund owned of record and beneficially by the nominee and by the recommending shareholder; any other information regarding the nominee that would be required to be disclosed in a proxy statement or other filing required to be made in connection with the solicitation of proxies for the election of board members; whether the nominee is an "interested person" of the Fund as defined in the 1940 Act; and the written consent of the nominee to be named as a nominee and serve as a board member if elected.

When evaluating a potential nominee for Independent Board Member, the Committee may consider, among other factors: educational background; relevant business and industry experience; whether the person is an "interested person" of the Fund as defined in the 1940 Act; and whether the person is willing to serve, and willing and able to commit the time necessary to attend meetings and perform the duties of an Independent Board Member. In addition, the Committee may consider whether a candidate's background, experience, skills and views would complement the background, experience, skills and views of other Board Members and would contribute to the diversity of the Board. The final decision is based on a combination of factors, including the strengths and the experience an individual may bring to the Board. The Board does not regularly use the services of professional search firms to identify or evaluate potential candidates or nominees.

The Operations Committee's primary purpose is to review and oversee the provision of administrative and distribution services to the Fund Complex, communications with the Fund Complex's shareholders, and the Fund Complex's operations.

Additional information about the Fund is available in the Prospectuses and the Statement of Additional Information dated March 1, 2023 (and as supplemented). These documents may be obtained free of charge by writing Principal Funds, Inc., P.O. Box 219971, Kansas City, MO 64121-9971 or telephoning 1-800-222-5852. The prospectus may be viewed at www.PrincipalAM.com/prospectuses.

#### PROXY VOTING POLICIES

A description of the policies and procedures the Fund uses to determine how to vote proxies relating to portfolio securities and the results of the proxy votes for the most recent twelve months ended June 30 may be obtained free of charge by telephoning 1-800-222-5852, or on the Securities and Exchange Commission ("SEC") website at www.sec.gov.

#### SCHEDULES OF INVESTMENTS

The Fund files complete schedules of investments with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. The Fund's Form N-PORT reports are available on the SEC website at www.sec.gov. In addition, the first and third quarter portfolio holdings are available at www.PrincipalAM.com.

Government Money Market Fund and Money Market Fund each file a complete schedule of investments with the SEC monthly on Form N-MFP. Form N-MFP is available on the SEC website at www.sec.gov. In addition, the monthly portfolio holdings are available for Government Money Market Fund and Money Market Fund at www.PrincipalAM.com.

#### BOARD CONSIDERATION OF INVESTMENT ADVISORY CONTRACTS

During the period covered by this report, the Board of Directors of Principal Funds, Inc. ("PFI") approved the annual review and renewal of the Management Agreement and various sub-advisory agreements for all Funds; and (2) approval of a sub-advisory agreement between Principal Global Investors, LLC (the "Manager") and Grantham, Mayo, Van Otterloo & Co., LLC.

# Annual Review and Renewal of Management Agreement and Sub-Advisory Agreements

At its September 13, 2023 meeting, the Board performed its annual review and renewal process relating to the Management Agreement and the Sub-Advisory Agreements for all Funds.

Section 15(c) of the Investment Company Act of 1940 (the "1940 Act") requires the Board, including a majority of the Directors who have no direct or indirect interest in the investment advisory agreements and who are not "interested persons" of PFI, as defined in the 1940 Act (the "Board"), annually to review and to consider the continuation of: (1) the Management Agreement between Principal Global Investors, LLC (the "Manager") and PFI, on behalf of each of the sixty-three (64) series of PFI (each series is referred to as a "Fund") (2) the Sub-Advisory Agreements between the Manager and each of AllianceBernstein L.P.; Barrow Hanley Mewhinney & Strauss, LLC; BlackRock Financial Management, Inc.; BlackRock International Limited; Brown Advisory, LLC; Causeway Capital Management LLC; Eagle Asset Management, Inc.; Emerald Advisers, LLC; Hotchkis and Wiley Capital Management, LLC; Insight North America LLC; Los Angeles Capital Management LLC; Nuveen Asset Management, LLC; Origin Asset Management LLP; PineBridge Investments LLC; Polen Capital Credit, LLC; Post Advisory Group, LLC; Principal Real Estate Investors, LLC; Robert W. Baird & Co. Incorporated; Spectrum Asset Management, Inc.; T. Rowe Price Associates, Inc.; Vaughan Nelson Investment Management, LP; Victory Capital Management Inc.; and Westwood Management Corp.; (collectively, the "Sub-Advisors"). The Management Agreement and the Sub-Advisory Agreements are collectively referred to as the "Advisory Agreements."

The Board considered the factors and reached the conclusions described below relating to the continuation of the Advisory Agreements. In evaluating the Advisory Agreements, the Board reviewed a broad range of information requested for this purpose, including, among other information, information regarding performance, advisory fees, total expenses, profitability from the Advisory Agreements to the Manager and information about economies of scale. The Board reviewed the materials provided and concluded that it was provided all information reasonably necessary to evaluate the Advisory Agreements. For the PFI Principal LifeTime Hybrid 2070 Fund and PFI Principal LifeTime 2070 Fund, each of which began operations after the previous annual evaluation of the Advisory Agreements in September 2022, the Board considered that the Funds had less than a full year of operations and reviewed the information that they had considered in connection with the initial approval of the Advisory Agreements for the Funds, as updated, along with such additional information as Board requested.

#### **Management Agreement**

The Board considered, among other factors, that the Manager and its affiliates have demonstrated a long-term commitment to support the Funds, including undertakings to cap Fund expenses and/or waive management fees for certain Funds. The Board concluded that a relationship with a capable and conscientious investment adviser is in the best interests of each Fund. In addition, the Board considered various factors, including the following factors for each of the Funds.

# Nature, Quality and Extent of Services

The Board considered the nature, quality and extent of the services provided under the Management Agreement, including accounting and administrative services, as applicable. The Board considered the experience and skills of senior management leading Fund operations, the experience and skills of the personnel performing the functions under the Management Agreements and the resources made available to such personnel, the ability of the Manager to attract and retain high-quality personnel and the organizational depth and stability of the Manager. The Board concluded that appropriate resources were provided under the Management Agreements. The Board also considered that for certain Funds, during the periods reviewed, the Manager had delegated day-to-day portfolio management responsibility to the Sub-Advisors. The Board noted that the Manager's process for the selection of sub-advisors emphasizes the selection of Principal-affiliated sub-advisors that are determined to be qualified under the Manager's due diligence process, but that the Manager will select an unaffiliated sub-advisor to manage all or a portion of a Fund's investment portfolio when deemed necessary or appropriate based upon a consideration of the Fund's investment mandate and available expertise and resources within the Principal organization. With respect to Funds with unaffiliated Sub-Advisors, the Board considered the due diligence process developed by the Manager for purposes of selecting a qualified unaffiliated sub-advisor for a Fund. The Board considered the Manager's due diligence process for monitoring and replacing Sub-Advisors and for monitoring the investment performance of the Manager. The Board also considered the compliance program established by the Manager for the Funds, the quality of that program and the level of compliance attained by the Funds. The Board noted that they had previously reviewed annual best execution and soft dollar reports and information regarding the research payment accounts for applicable Funds and included this information in their consideration of the renewal of the Advisory Agreements. Based upon all relevant factors, the Board concluded that the nature, quality and extent of the services provided by the Manager to the Funds under each Management Agreement were satisfactory.

#### **Investment Performance**

The Board reviewed each Fund's investment performance over longer-term periods, reviewing both the investment return during the three-year period ended March 31, 2023 and the blended investment return (50%/50%) of the three- and five-year periods ended March 31, 2023, and compared those returns to various agreed-upon performance measures, including, for all Funds other than Government Money Market Fund and Money Market Fund, peer-group data based upon a broad-based industry category determined using Morningstar Direct data ("Performance Universe"). For Government Money Market Fund and Money Market Fund, comparative performance information was based upon data provided by iMoneyNet.

For Funds or Sub-Advisors that did not have a five-year performance history, the Board reviewed performance information for a three-year period ended March 31, 2023, if available. For Funds or Sub-Advisors that did not have a three-year performance history, the Board reviewed performance information for a one-year period ended March 31, 2023, if available. The Board also compared each Fund's investment performance over the one-, three- and five-year periods ended March 31, 2023, as available, to one or more relevant benchmark indices. The Board noted that certain Funds had commenced operations recently and, accordingly, no or limited performance information was considered. The Board also considered whether investment results were consistent with a Fund's investment objective(s) and policies. For most Funds, the Board concluded that the Fund's investment returns met acceptable levels of investment performance. There were certain Funds, and certain Sub-Advisors or affiliated portfolio management teams for multi-manager Funds, that had not attained, during the relevant period(s), a level of investment performance considered satisfactory by the Board. For such Funds, the Board also considered other factors, such as the longer-term performance of each such Fund, Sub-Advisor or portfolio management team, remedial efforts being undertaken to improve performance and/or the Manager's explanation for the performance of such Fund, Sub-Advisor or portfolio management team. The Board considered the Manager's due diligence process for evaluating the performance of all Funds, all Sub-Advisors and all affiliated portfolio management teams, for which they receive regular reporting, and concluded that the Manager has in place an effective due diligence process to monitor investment performance, to encourage remedial action and to make changes in the Sub-Advisors or affiliated portfolio management teams at the appropriate time, if necessary, subject to Board oversight.

# Fees and Expenses

The Board considered each Fund's contractual and effective management fee rates. For each Fund, other than as noted below, the Board received certain information from Broadridge. For Funds the Board received information comparing each Fund's (1) contractual management fee rate at current asset levels and at theoretical asset levels, (2) effective net management fee rate (after any fee waivers) at average fiscal-year asset levels, (3) actual non-management expense rate at average fiscal-year asset levels and (4) total net expense ratio (including, as applicable, acquired fund fees and expenses and after any expense caps or fee waivers) at average fiscal-year asset levels for Institutional Class shares for each Fund, except for Government Money Market Fund and Money Market Fund, as described below; to investment advisory fee rates, non-management expense rates and expense ratios of funds in a peer group selected by Broadridge ("Expense Group") and a broad-based industry category defined by Broadridge ("Expense Universe").

For Government Money Market Fund, comparative fee and expense information was provided based upon Class R-6 shares, which represented approximately 100% of the Fund's total assets as of February 28, 2023. For Money Market Fund, which does not have Institutional Class shares, comparative fee and expense information was provided based upon Class A shares. For other Funds for which Class A shares represented more than 10% of the Fund's total assets, comparative fee and expense information was supplementally provided based upon Class A shares.

In evaluating the contractual and effective management fee rates, the Board considered a variety of factors, including the contractual and effective fee rates, breakpoints, comparisons to fee rates of peer group funds and other funds and non-fund accounts managed by the Manager, sub-advisory fee rates paid, services provided, investment performance, total net expense ratios, profitability, the existence and sharing of economies of scale, indirect benefits, and expense caps and fee waivers. The Board considered the impact of changes in sub-advisory fee rates put into effect since September 2022. The Board considered that certain Funds with similar investment strategies and policies have different management fee schedules and noted the reasons cited by the Manager for the differing fee rates. In reviewing the fee rates of other accounts managed by the Manager, the Board considered information provided by the Manager regarding differences between the services provided to and the risks involved in sponsoring the Funds and the services provided to and the risks involved in sponsoring such other accounts. For most Funds, effective net management fee rates were within the third quartile or better when compared to the applicable Expense Group. For some Funds, although effective net management fee rates were higher than the third quartile, total net expense ratios were within the third quartile or better. Discussion is set forth below regarding specific factors relevant to the Board' review of certain other Funds.

With respect to the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds, the Board noted that the Funds do not pay Fund-level management fees and reviewed the actual non-management expenses of the Funds. The Board reviewed the total net expense ratios of the Funds, including acquired fund fees and expenses, and noted that the total net expense ratio, including acquired fund fees and expenses, for Institutional Class shares of Principal LifeTime Hybrid 2015 Fund, Principal LifeTime Hybrid 2020 Fund, Principal LifeTime Hybrid 2030 Fund, Principal LifeTime Hybrid 2030 Fund, Principal LifeTime Hybrid 2030 Fund and Principal LifeTime Hybrid Income Fund was in the third quartile or better in the Expense Group, and that the total net expense ratio, including acquired fund fees and expenses, for Institutional Class shares of Principal LifeTime Hybrid 2045 Fund, Principal LifeTime Hybrid 2050 Fund, Principal LifeTime Hybrid 2065 Fund and for Institutional Class shares of each of the Principal LifeTime Funds was in the fourth quartile (each was at the 80th, 83rd or 99th percentile) in the Expense Group. In concluding

that the Management Agreement for the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds should be renewed, the Board considered all relevant factors, including each Fund's actual non-management expenses, which the Board concluded were reasonable, and the fees and expenses of the underlying Funds in which each Fund invests, which the Board evaluated individually and concluded were reasonable. The Board accepted the Manager's proposal to add a new expense cap for Institutional Class shares of Principal LifeTime Strategic Income Fund to be effective from March 1, 2024 through February 28, 2025 and considered the proforma effect of the expense cap on the ranking of the Fund's total net expense ratio on the basis of Institutional Class shares in the Expense Group, noting that the Fund's total net expense ratio would move to the 80th percentile. The Board also considered that the Manager had proposed certain reductions in the management fees and/or expense caps of certain underlying Funds held by the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds, noting that such reductions would have the effect of reducing the amounts of acquired fund fees and expenses borne by the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds. In considering the performance of each of the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds, the Board noted that for each Fund, the Fund's performance ranked in the third quartile or better of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2023.

With regard to Money Market Fund, the Board noted that the effective net management fee rate and the total net expense ratio on the basis of Class A shares were higher than the third quartile (both were at the 99th percentile) in the Expense Group. Considering all relevant factors, including management's explanation that the data for many funds in the Expense Group may reflect a full year or partial year of management fee waivers to support a \$1.00 net asset value and that the Fund's effective net management fee rate and total net expense ratio used in the comparison did not reflect any waivers, that the Fund's contractual management fee rate on the basis of Class A shares was in the third quartile (57th percentile) in the Expense Group, and that the Fund's performance was in the third quartile of its Performance Universe for the three-year and blended three- and five-year periods ended March 31, 2023 (71st and 69th percentiles, respectively), the Board concluded that the Management Agreement should be renewed.

The Board also considered the expense caps and fee waivers that would be in place with respect to certain Funds and share classes. The list of agreed upon expense caps and fee waivers is the result of the Manager's proposals to extend the expense caps and fee waivers for certain Funds and share classes and to terminate the expense caps and fee waivers for other Funds and share classes that are projected to continue to operate below current applicable expense caps.

With regard to each of Core Fixed Income Fund, Core Plus Bond Fund, LargeCap S&P 500 Index Fund, and Overseas Fund, the Board accepted management's proposal to amend the management fee schedule for the Fund to reduce the effective management fee rate payable at current asset levels (for Core Fixed Income Fund) or all asset levels (for Core Plus Bond Fund, LargeCap S&P 500 Index Fund, and Overseas Fund) and considered this fee reduction in concluding that the Management Agreement, as amended, should be renewed.

# **Profitability**

The Board reviewed detailed information regarding revenues the Manager received under the Management Agreements and the estimated direct and indirect costs incurred in providing to each Fund the services described in the applicable Management Agreements for the year ended December 31, 2022. The Board also considered the returns on revenue generated in connection with the payment of sub-advisory fees to affiliated Sub-Advisors (Origin Asset Management LLP, Post Advisory Group, LLC, Principal Real Estate Investors LLC and Spectrum Asset Management, Inc.) and the aggregated return on revenue to the Manager and its affiliates for the year ended December 31, 2022. The Board noted that the Manager compensates each Sub-Advisor from its own management fee and considered the pro forma impact on the Manager's returns on revenue from the reductions of certain Funds' effective management fee rates described above and the reductions of certain Funds' effective sub-advisory fee rates described below. The Board concluded that, for each Fund, the profitability to the Manager of the Management Agreement was not unreasonable.

# Economies of Scale

The Board considered whether there are economies of scale with respect to the management of each Fund and whether the Funds benefit from any such economies of scale. The Board considered the Manager's biennial breakpoint analysis that was received by the Board in March 2022 and the Manager's representation that Funds are initially priced as though the Fund had reached scale, reflecting a sharing of economies of scale. The Board then reviewed the levels at which breakpoints occur, the incremental declines in management fee rates at each breakpoint and the amount of fee reductions that had been provided to shareholders as a result of these breakpoints. The Board considered cost savings passed along to the Funds as a result of certain expense caps and fee waivers. The Board also considered whether the effective management fee rate for each Fund under the applicable Management Agreement is reasonable in relation to the asset size of such Fund. The Board noted management's explanation of efficiencies in the Manager's cost structure. The Board concluded that the fee schedule for each Fund, taking into account the proposed amendments described above, reflects an appropriate level of sharing of any economies of scale.

The Board noted that the Principal LifeTime Hybrid Funds and the Principal LifeTime Funds do not directly pay management fees, although shareholders bear a portion of the cost of the management fees at the underlying fund level as reflected in the acquired fund fees and expenses.

The Board also noted that the management fee schedules for Government Money Market Fund, MidCap S&P 400 Index Fund, and SmallCap S&P 600 Index Fund do not include breakpoints, but that each such Fund has a relatively low management fee rate (25 basis points or less)

on all Fund assets. Considering all relevant factors, including each such Fund's fee rate and current asset level, the Board determined that no breakpoints were necessary at this time.

# Other Benefits to Manager

The Board also considered the character and amount of other incidental benefits received by the Manager and its affiliates from their relationships with the Funds. The Board noted that the Manager uses Fund commissions to buy Section 28(e) eligible products and services. The Board concluded that the incidental benefits received by the Manager and its affiliates were appropriate.

#### **Sub-Advisory Agreements**

#### Nature, Quality and Extent of Services

The Board considered the nature, quality and extent of the services provided under each Sub-Advisory Agreement. The Board considered the reputation, qualifications and background of the Sub-Advisor, the investment approach of the Sub-Advisor, the experience and skills of investment personnel responsible for the day-to-day management of each Fund and the resources made available to such personnel. The Board also considered the Sub-Advisors' compliance with investment policies and general legal compliance. Based upon all relevant factors, the Board concluded that the nature, quality and extent of the services provided by the Sub-Advisors to the sub-advised Funds under the Sub-Advisory Agreements were satisfactory.

#### **Investment Performance**

As to each sub-advised Fund, the Manager recommended the renewal of each Sub-Advisory Agreement. Based upon all relevant factors, the Board concluded that each Sub-Advisor is qualified and that either: (1) the investment performance of the Sub-Advisor met acceptable levels of investment performance; or (2) although the Fund experienced underperformance from the applicable Sub-Advisor, based upon that Fund's particular circumstances or in light of remedial efforts being undertaken to improve performance, as applicable, it was in the best interests of the Fund to continue to closely monitor performance and to renew the Sub-Advisory Agreement. In each case involving underperformance, the Board concluded that the Manager was providing effective monitoring.

#### Fees, Economies of Scale and Profitability

For each sub-advised Fund, the Board considered the sub-advisory fee rate(s), noting that the Manager compensates each Sub-Advisor from its own management fee, so that shareholders pay only the management fee. For each sub-advised Fund, other than as noted below, the Board received certain information from Broadridge comparing each such Fund's sub-advisory fee rate(s) at current asset levels and at theoretical asset levels to sub-advisory fee rates of sub-advised funds in the Expense Group and, if available, the Expense Universe.

The Board considered whether there are economies of scale with respect to the sub-advisory services provided to each sub-advised Fund and, if so, whether the sub-advisory fees reflect such economies of scale through breakpoints in fee schedules or whether the sub-advisory fee schedule is otherwise appropriate at current asset levels. In addition, in evaluating the sub-advisory fee rates and the factor of profitability, with respect to unaffiliated Sub-Advisors, the Board considered that the sub-advisory fee rate was negotiated at arm's length between the Manager and the Sub-Advisor. The Board considered the profitability of the affiliated Sub-Advisors, taking into account the changes in the sub-advisory fee schedules noted above, as applicable, in conjunction with their review of the profitability of the Manager.

#### Other Benefits to Sub-Advisors

The Board also considered the character and amount of other indirect benefits received by each Sub-Advisor when evaluating the sub-advisory fees. The Board considered as a part of this analysis each Sub-Advisor's brokerage practices, soft dollar practices and use of research payment accounts. The Board concluded that the indirect benefits received by each Sub-Advisor were appropriate.

#### **Overall Conclusions**

Based upon all of the information considered and the conclusions reached, the Board determined that the terms of each Advisory Agreement, including the fee rate payable thereunder, continue to be fair and reasonable and that the continuation of each Advisory Agreement, with the actions proposed by the Manager, is in the best interests of each Fund.

# **Approval of Sub-Advisory Agreement for Diversified Income Fund**

On October 26, 2023, the Board met to consider for Diversified Income Fund (the "Fund") the approval of a sub-advisory agreement (the "Sub-Advisory Agreement") between Principal Global Investors, LLC (the "Manager") and Grantham, Mayo, Van Otterloo & Co., LLC (the "Sub-Advisor") with respect to a new opportunistic securitized investment sleeve of the Fund.

The Board considered various factors, including the following, and made certain findings and conclusions with regard thereto, in approving the Sub-Advisory Agreement.

#### Nature, Quality and Extent of Services.

The Boards considered the nature, quality and extent of the services to be provided under the Sub-Advisory Agreement. The Boards considered the reputation, qualifications and background of the Sub-Advisor, the investment approach of the Sub-Advisor, the experience and skills of the Sub-Advisor's investment personnel who would be responsible for the day-to-day management of the Fund's opportunistic securitized investment sleeve and the resources made available to such personnel. The Boards considered the Manager's program for recommending, monitoring and replacing sub-advisors and that the Manager recommended the Sub-Advisor based upon that program.

# Investment Performance

The Boards reviewed the historical one-year, three-year and five-year performance returns, gross and net of proposed fees, as of June 30, 2023 of the Sub-Advisor in a composite managed in the investment strategy for the opportunistic securitized investment sleeve of the Fund that the Sub-Adviser is proposed to manage, as compared to historical performance returns, net of fees, of another sub-adviser's U.S. investment grade credit sleeve for the Fund, the Manager's global investment grade credit sleeve for the Fund, one relevant benchmark index and a relevant Morningstar category. The Boards concluded, based upon the information provided, that the Sub-Advisor is qualified.

# Fees, Economies of Scale and Profitability

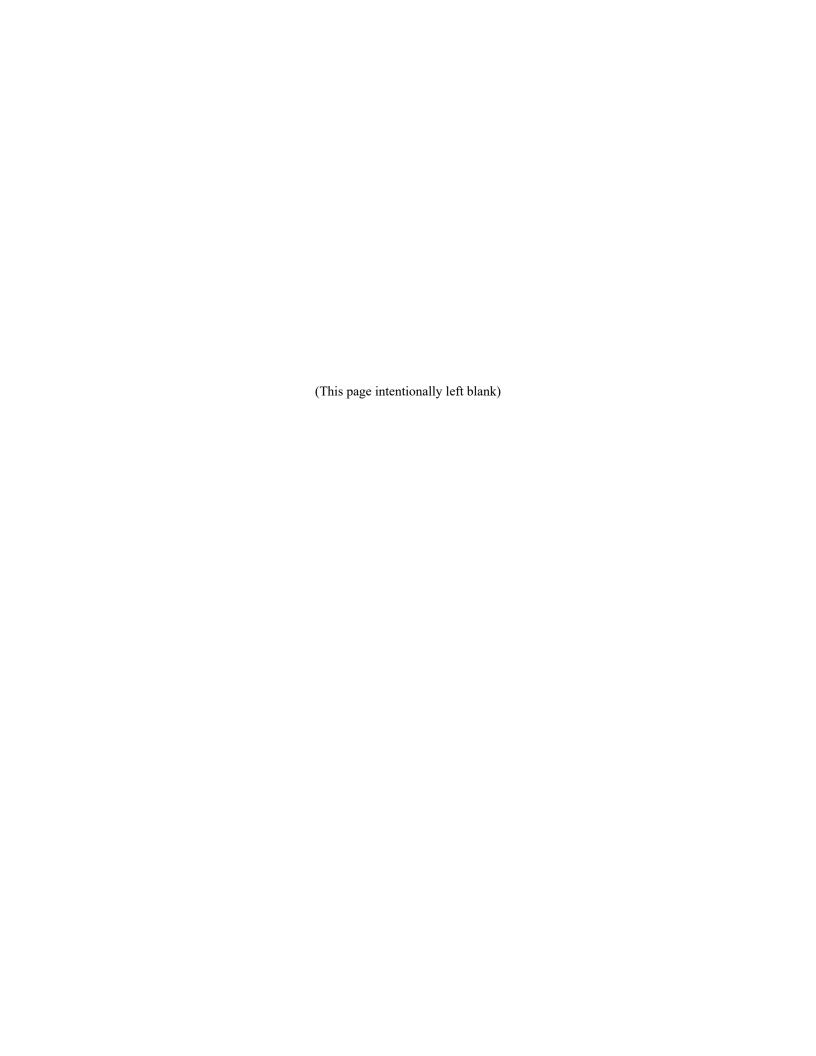

The Boards considered the proposed sub-advisory fee, noting that the Manager compensates sub-advisors from its own management fee so that shareholders pay only the management fee. The Boards considered whether there are economies of scale with respect to the sub-advisory services to be provided to the Fund under the Sub-Advisory Agreement. The Boards noted that the proposed sub-advisory fee schedule includes breakpoints. The Boards noted the Sub-Advisor's representation that it does not have a comparable sub-advisory client for the opportunistic securitized investment strategy for the sleeve and considered the Manager's statement that it found the proposed sub-advisory fee schedule to be competitive. On the basis of the information provided, the Boards concluded that the proposed sub-advisory fee schedule was reasonable.

#### Other Benefits

The Boards also considered the character and amount of other fall-out benefits to be received by the Sub-Advisor. The Boards noted the Sub-Adviser's statement that it does not intend to use soft dollars in the opportunistic securitized investment sleeve. The Boards further noted the Manager's statement that there were no known fall-out benefits to the Sub-Advisor to result from its relationship to the Fund.

#### **Overall Conclusions**

Based upon all of the information considered and the conclusions reached, the Board determined that the terms of the Sub-Advisory Agreement are fair and reasonable and that approval of the Sub-Advisory Agreement is in the best interests of the Fund.

#### FEDERAL INCOME TAX INFORMATION PRINCIPAL FUNDS, INC. October 31, 2023 (unaudited)

Long-Term Capital Gain Dividends. Certain funds distributed long-term capital gain dividends during the fiscal year ended October 31, 2023. Details of designated long-term capital gain dividends for federal income tax purposes are shown in the Notes to Financial Statements. To the extent necessary to distribute such capital gains, certain funds may also utilize, and hereby designate, earnings and profits distributed to shareholders on redemptions of shares as part of the Dividends Paid Deduction.

**Dividends Received Deduction ("DRD").** For corporate shareholders, the funds designate the following as a percentage of taxable ordinary income distributions (dividend income and short-term gains, if any), or up to the maximum amount allowable, as DRD eligible for the calendar year ended December 31, 2022:

	DRD		DRD
California Municipal Fund	0.00%	Principal LifeTime 2045 Fund	46.00%
Core Fixed Income Fund	1.21	Principal LifeTime 2050 Fund	52.85
Core Plus Bond Fund	2.07	Principal LifeTime 2055 Fund	51.68
Diversified Income Fund	9.01	Principal LifeTime 2060 Fund	50.09
Diversified International Fund	0.13	Principal LifeTime 2065 Fund	51.71

**Section 199A Dividends.** Non-corporate shareholders of the funds below meeting certain holding period requirements may be able to deduct up to 20 percent of qualified REIT dividends passed through and reported to the shareholders by the funds as Section 199A dividends. The funds designate the following as a percentage of taxable ordinary income distributions (dividend income and short-term gains, if any), or up to the maximum allowable, as 199A eligible for the calendar year ended December 31, 2022:

 Real Estate Securities Fund
 199A

 87.39%

In early 2023, if applicable, shareholders of record received the above information on QDI and Foreign Tax Credit, and Section 199A for the distribution paid to them by the funds during during the calendar year 2022 via Form 1099.

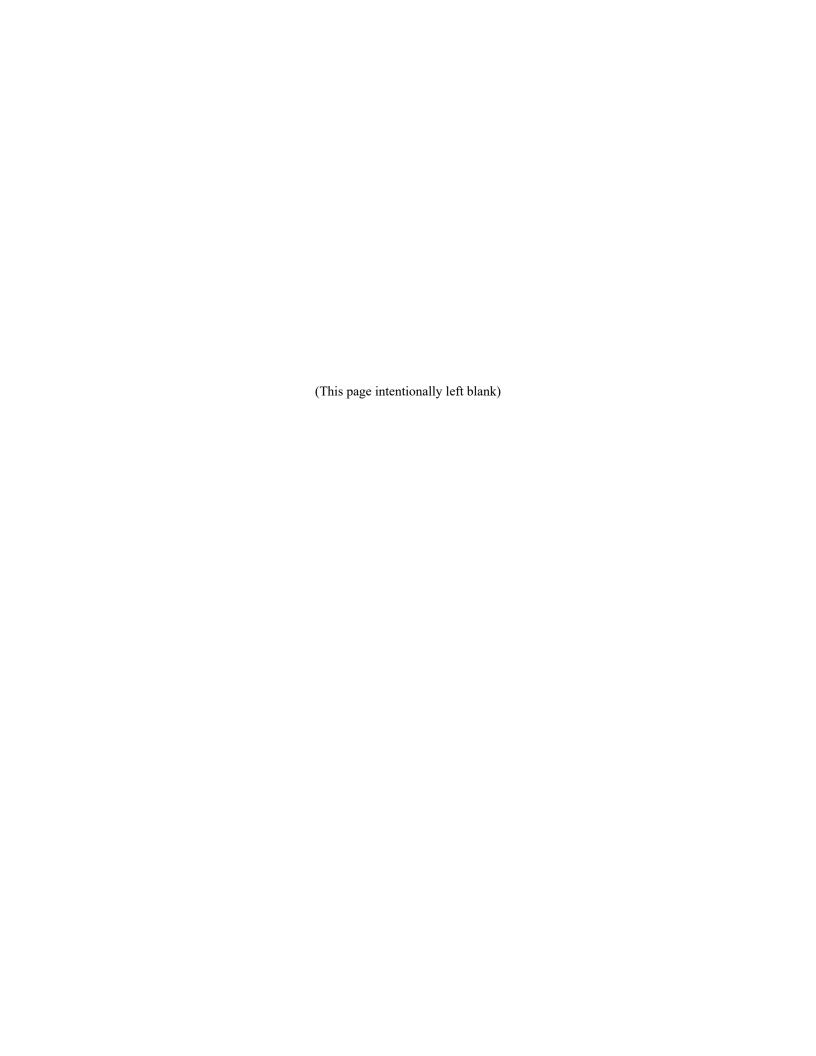

The funds will notify shareholders in early 2024 of amounts paid to them by the funds, if any, during the calendar year 2023.

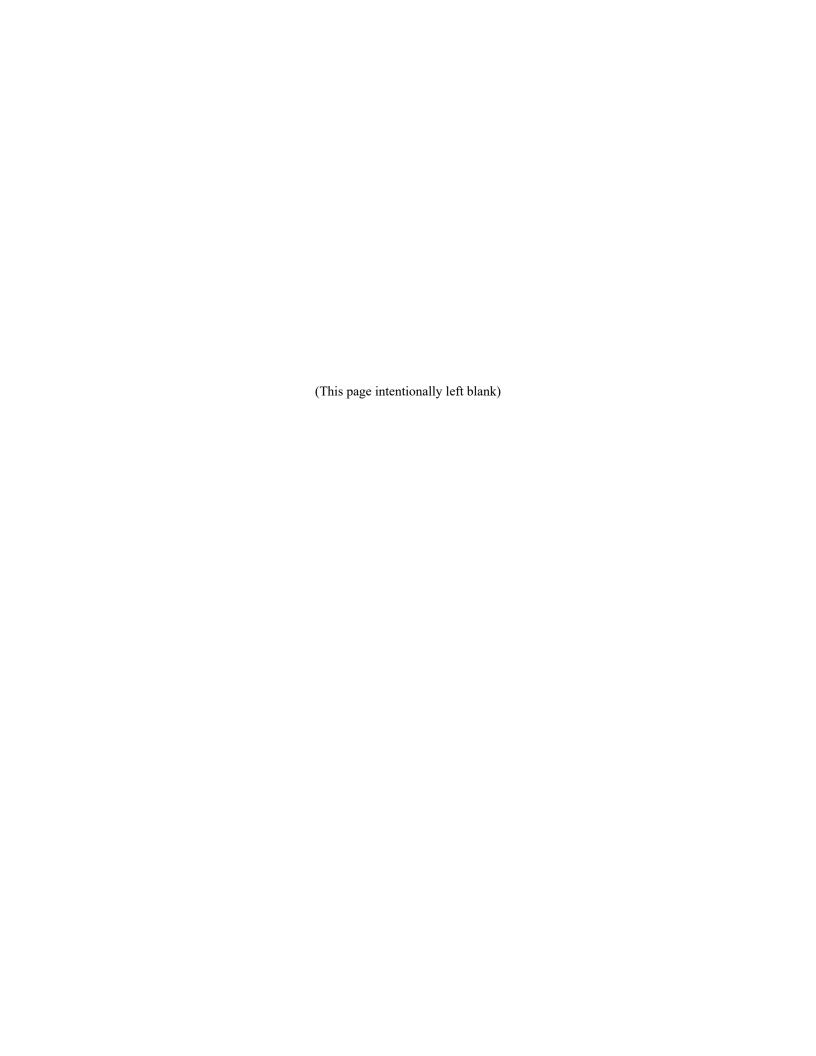

This information is given to meet certain requirements of the Internal Revenue Code and should not be used by shareholders for preparing their income tax returns. For tax return preparation purposes, please refer to the information supplied with the 1099-DIV form you will receive from the fund's transfer agent.

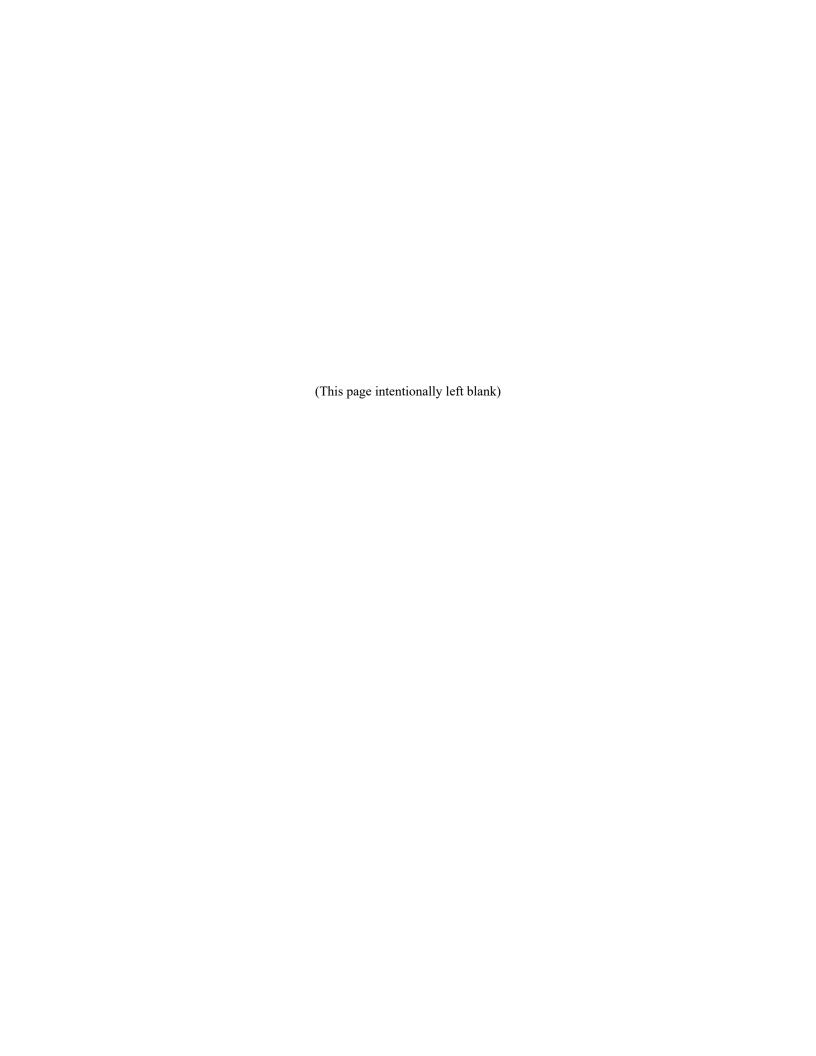

The latest tax reporting supplement is available on Principal's Tax Center website.
